PRELIMINARY NOTES.

Golden Number...	1	Dominical Letter	E
Epact...	30	Roman Indiction	5
Solar Cycle...	23	Julian Period	...6575

The Singhalese New year commences	April 12th.
The Mohammedan New year 1279 commences ...	June 29th.
Ramadan (the month of abstinence) commences ...	March 2nd.
The Jewish year 5623 commences	September 2nd.

PHENOMENA.

In the year 1862 there will be three Partial Eclipses of the Sun, on the 26th June, 21st Nov., and 20th Dec.; and two total Eclipses of the Moon, on the 11th June, and 5th Dec., none of which will be visible in Ceylon.

COLOMBO TIME.

Ceylon being so far towards the East or Sun-rising, it is already mid-day here when it is morning in England. The day here is farther advanced than at Greenwich 5 hours 19 minutes and 33 seconds, which must therefore be added to the time in England to give the time here.

The quantities given under the head "Sun's Declination" are to the nearest minute, and those under "Equation of Time" to the nearest second. By these data, with the use of a pocket sextant, the time may be readily obtained to within four seconds. Those whose objects require greater accuracy will most probably be provided with a Nautical Almanac.

Fixed and Moveable Festivals, Anniversaries, etc.

Epiphany	Jan. 6	*Ascension day—Holy Thursday*	May 29
Martyrdom of K. Charles I.	„ 30	Restoration of K. Charles II.	„ 29

{ 27 Sat. } Holidays.

BANK.

New-year's Day. Good Friday. Christmas day.

THE CALENDAR.
1862.

THE WEATHER.

COLOMBO.—The rains which accompany the setting in of the N. E. monsoon are usually over, the soil is still moist, the sky is clear, and the nights cold, with an along-shore or land wind blowing, which must be guarded against.

TRINCOMALIE.—The rains of the N.E. monsoon are now generally over. Strong winds from N. E. Fine weather throughout and most pleasant.

PHASES OF THE MOON.

THE WEATHER.

COLOMBO.—The along-shore wind (a strong parching wind from the N. E.) often continues to blow the greater part of this month night and day. It carries off the moisture of the ground and the skin rapidly, and gives rheumatism, &c., to those who expose themselves incautiously to it.

TRINCOMALIE.—Fine weather throughout, wind N. E. but more moderate. Occasional land wind after midnight and very cold.

THE WEATHER.

COLOMBO.—The dry earth now receives far more heat from the sun than it parts with by evaporation or terrestrial radiation. The weather is becoming very warm. Notwithstanding the alternate sea breezes by day and land winds by night, the heat is oppressive compared with that of the rest of the year.

TRINCOMALIE.—Fine weather throughout, wind more moderate and veers round to E. N. E. and East with morning land wind. Towards the end of the month the weather becomes warm.

THE WEATHER.

COLOMBO.—Indications of the approach of the S. W. monsoon are to be observed in a ground swell in the sea and S. W. breeze more steady than the sea breeze of last month. The temperature, however, continues to rise, and all who can, leave for the mountains.

TRINCOMALIE.—This is the most oppressive month in the year. The sea breeze light from the Eastward which dies away soon after sunset, and remains calm all night with the Therm: seldom lower than 86.

THE WEATHER.

COLOMBO.—By the middle of this month, genial showers begin to fall. The wind in the S. W., and towards the close of the month thunder and lightning in the afternoons in the S. W., with heavy showers, each preceded by a squall.

TRINCOMALIE.—A few showers generally precede the S. W. monsoon, which usually set in about the 2nd week, with very strong winds, fine dry, but hot weather to the end, the breeze extremely refreshing as soon as the Sun sets.

THE WEATHER.

COLOMBO.—The rains mostly over, and a steady S. W. wind blowing day and night; the difference between the wet and dry thermometer seldom exceeding 6°.

TRINCOMALIE.—Strong winds from S. W., clear weather, occasional (sometimes very violent) squalls from N. W. with lightning, thunder, and heavy rain for an hour, cooling the air greatly, and the excessive heat of the monsoon may be considered over.

THE WEATHER.

COLOMBO.—The first half of this month is usually marked by rains, due to the N.E. monsoon, which are very heavy though of short duration. By these the air is cooled and the soil refreshed, though extensive inundations often result.

TRINCOMALIE.—Land and sea breezes with occasional showers; towards the end of the month gloomy weather.

THE WEATHER.

COLOMBO.—The pleasant weather of the latter part of October is usually continued to the middle of this month, when thunder clouds gather every afternoon in the N. E. followed by night rains and land winds.

TRINCOMALIE.—Variable winds, sky overcast, squalls, lightning, thunder, and occasional heavy rains, until the third week, when the N. E. wind generally sets in strong with more constant rain.

Account of the Calendar.

The JULIAN or COMMON CIVIL YEAR* is that which is employed in chronology. This is in effect a solar year, commonly containing a certain number of whole days, the odd hours and minutes being set aside to render the computation of time in the common concerns of life more easy, and consists of 365 *days* or 13 *months*, 1 *day*; or 52 *weeks*, 1 *day*, for three years together; but every fourth year a day (or in the four years 6 hours for each year) being added to February, it then contains 366 days; this is called *bissextile* or *leap year*, consequently the mean Julian year, will be 365 *days*, 6 *hours*.

The MEAN SOLAR, ASTRONOMICAL, TROPICAL, NATURAL, or EQUINOCTIAL YEAR is the true standard of time, and is the period of time in which the earth performs a revolution about the sun, or passes from the first point of *Aries* to the same first point of *Aries* again; and has been assumed, according to Bessel (see *Connaissance des Temps*, 1831, Additions, p. 154.), equal to 365·242218 *mean solar days*=365*d*. 5*h*. 48*m*. 47·6352*s*.

Although the Julian method of intercalation is perhaps the most convenient that could be adopted; yet, as the science of astronomy advanced, the length of the astronomical year was found to be shorter than the Julian correction supposes by 11*m*. 12·3648*s*., it could not, without correction, very long answer the purpose for which it was devised, namely, that of preserving always the same interval of time between the commencement of the year and the equinox, and thus would a degree of confusion be introduced into the relative divisions of the year, and be productive of great inconvenience: at length it was discovered that an error of one day too much would take place in 129 years (for as 11*m*. 12·3648*s* : 1 *year* : : 1*d* : *x*); but in the time of Cæsar the length of the year was an astronomical element not very well determined. In the course of a few centuries, however, the equinox sensibly retrograded towards the beginning of the year in consequence of the precession of the equinoxes. When the Julian calendar was introduced, the equinox fell on the 25th of March; at the time of the Council of Nice, which was held *Anno Domini* 325, it fell on the 21st of March. This imperfection of the calendar was noticed as early as the time of the Venerable Bede; but the reformation of it did not take place till many centuries after: *Petrus ab Alliaco* and *Cusa*, two learned Cardinals, not only pointed out these imperfections to the Councils of Constance and Lateran, but suggested the means for its correction; and in A. D. 1474, *Pope Sixtus the IVth* engaged *Regiomontanus*, an eminent mathematician, in this task of reform, though from the circumstance of the death of *Regiomontanus* the project was not carried into effect. And when the reformation was made, in 1582, the equinox had retrograded to the 11th of March; therefore, in order to make the calendar more correct, *Pope Gregory the XIIIth* invited *Clavius* and *Ciaconius*, the most celebrated astronomers and mathematicians of the age, with others, to superintend the reconstruction of the calendar: they having found that by the introduction of the bissextile days, a difference had arisen of *ten days* between the calendar and actual time, owing to the odd minutes and seconds which the bissextile year occasioned the calendar to exceed the true period of the sun's progress, the *Pope* then issued a brief, in the month of March 1582, in which he abolished the use of the ancient calendar. And in order to restore the commencement of the year to the same place in the seasons that it had occupied at the time of the Council of Nice, Gregory directed the day following the feast of St. Francis, that is to say, the 5th of October, to be reckoned the 15th of that month. By this regulation the vernal equinox, which now happened on the 11th of March, was restored to the 21st. This last amendment of the calendar having taken place under the direction of *Pope Gregory the XIIIth*, was, out of respect to him, called the *Gregorian* or *New Style*, in opposition to the *Julian* or *Old Style*, and has been adopted by almost every Christian nation. The *Gregorian Style* was immediately acceded to by all those parts of Europe which were under the papal authority, but the Protestants adhered to the *Julian Style* with obstinate pertinacity; and the Protestants of Germany have the credit of having first rectified such inconsistency, by throwing eleven days out of their calendar in 1700; while it is worthy of remark, that the Russians, regardless of

* The first Julian year commenced with the first of January of the 46th before the birth of Christ, and 708 from the foundation of the city of Rome.

propriety, still adhere to the Julian style, and therefore, by another centurial leap-year having occurred, viz. in the year 1800, they now differ from us 12 days in their date of time. Now as the error of the Julian intercalation was found to amount to three days in 400 years, he ordered intercalations to be omitted on all the centenary years, excepting those which are multiples of 400. According to the Gregorian rule of intercalation, therefore, to know when it is *bissextile* or *leap year*, divide the year by 4, and the remainder shews how long it is after leap year; if nothing remains it is leap year, excepting the centurial years, which are only leap years when divisible by 4 after suppressing the two zeros. Thus 1600 and 2000 are leap years, because 16 and 20 are divisible by 4; but 1700, 1800, and 1900 are common years, and so on, because 17, 18, and 19 are not divisible by 4, but these would have been leap years by the Julian calendar. As the Gregorian method of intercalation has been adopted in all Christian countries, Russia excepted, it becomes interesting to examine with what degree of accuracy it reconciles the civil with the solar year; therefore the only thing in the correction of the calendar that requires a high degree of mathematical science is the determination of the length of the astronomical year; yet this has never been perfectly ascertained. Had the mean astronomical year been more accurately determined in the time of Julius Cæsar, the Julian correction would, probably, have superseded the necessity of the Gregorian. Although the Gregorian calendar is far preferable to the Julian, yet it is not without its defects (perhaps, as *Tycho Brahe* and *Cassini* imagine, it is impossible ever to bring the calendar to a perfect justness). According to the latest determinations of modern astronomy, the *mean solar year* consists of 365 *d.* 5 *h.* 48 *m.* 47·6352 *s.*, or 365·242218 *d.* Now the Gregorian rule gives 97 intercalations in 400 years; 400 years therefore contain $365 \times 400 + 97 = 146097$ days, and consequently one year contains 365·2425 days or 365*d.* 5*h.* 49*m.* 12*s.* This exceeds the true solar year by 24·3648 seconds, which amount to a day in 3546 years; for as 24·3648 *s.* : 1 *year* :: 1 *d.* : *x*. It is perhaps unnecessary to make any formal provision against an error which can only happen after so long a period of time; but as 3546 differs little from 4000, it has been proposed to correct the Gregorian rule by making the year 4000 and all its multiples common years. With this correction the rule of intercalation is as follows:—Every year, the number of which is divisible by 4, is a leap year, excepting the last year of each century, which is a leap year only when the number of the century is divisible by 4; but 4000, and its multiples, 8000, 12000, 16000, &c., are common years. Thus the uniformity of the intercalation by continuing to depend on the number 4, is preserved; and by adopting the last correction the commencement would not vary more than a day from its present place in 31250 years. For as the Gregorian intercalation gives 97 days in 400 years, consequently in 4000 years 970 days would be intercalated; but one day is now omitted at the end of every 4000 years, therefore only 969 days are intercalated, consequently the civil year will be $365\,d. + \frac{969}{4000} = 365\,24225\,d.$ 365 *d.* 5*h.* 48*m.* 50·4 *s.*; but this exceeds the mean solar year by 2·7648 seconds and it would require 31250 years to make the beginning of the civil and tropical year be a day apart, for as 2·7648 *s.* : 1 *year* :: 1 *d.* : *x*.

From the year 1582 to 1700 the difference between the old and new style continued to be ten days; but 1700 being a leap year in the Julian calendar, and a common year in the Gregorian, the difference of the styles during the eighteenth century was 11 days. The year 1800 was also common in the new calendar, and consequently the difference in the present century is twelve days, and so will continue till the year 1900, and from 1900 to 2100 will be thirteen days, and at every centesimal year, which is not exactly divisible by 4, will be an increase of one day more, excepting 4000 and its multiples. In Great Britain the alteration from the old to the new style was for a long time successfully opposed by popular prejudice, but the inconvenience had been so generally felt in matters of history and chronology, that at length, in 1751, an Act of Parliament was passed for the adoption of the new style in the year following, in all public and legal transactions under the crown. The difference of the two styles, which then amounted to eleven days, was removed by ordering the day following the 2*nd* of September of the year 1752 to be accounted the 14*th* of that month, whereby that month consisted of only nineteen days: and in order to preserve uniformity in future, the Gregorian rule of intercalation respecting the secular years was adopted.

The SIDEREAL or ASTRAL YEAR is the time elapsed from the sun's quitting a particular fixed star to its return to the same fixed star again, and it exceeds the solar year by 20 *m.* 19·9561 *s.*, making the sidereal year 365 *d.* 6 *h.* 9 *m.* 7·5913 *s.*; this difference is called the precession or retrograde motion of the equinoxes, by which

the fixed stars gain about 50·1 seconds in right ascension every year; consequently the length of a sidereal year can then be determined by no method more obvious or more correct than this:—

As 360 *deg.* 50·1 *s.* : 365 *d.* 5 *h.* 48 *m.* 47·6352 *s.* : : 360 *deg.* : 365 *d.* 6 *h.* 9 *m.* 7·5913 *s.*

The ANOMALISTIC YEAR is the interval which is occupied by the sun in passing from *apogee* to *apogee*, or from *perigee* to *perigee*; it is greater than the sidereal year by the time required to describe the annual progression of the apogee: now the progression of the apogee (its increase of longitude) being 11·8 seconds, therefore the anomalistic year is complete when the sun has described 360 *deg.* 0 *m.* 11·8 *s.* Hence to find the length of an anomalistic year—

As 360 *deg.* : 365 *d.* 6 *h.* 9 *m.* 7·5913 *s.* : : 360 *deg.* 0 *m.* 11·8 *s.* : 365 *d.* 6 *h.* 13 *m.* 54·9263 *s.*

Therefore the anomalistic year is longer than the sidereal by 4 *m.* 47·335 *s.*, and longer than the equinoctial by 25 *m.* 7·2911 *s.*

Apparent or *true time* is that which is denoted by the sun-dial, from the apparent motion of the sun, and differs several minutes in certain parts of the ecliptic from the mean time, or that shewn by the clock. The difference is called the equation of time and is set down in the almanac in order to ascertain the true time. This irregularity is produced by two principal causes, viz. the obliquity of the ecliptic to the equator, and the eccentricity of the earth's orbit, and by the small deviations from elliptical motion produced by the moon and planets.

A *lunar month or synodic revolution of the moon* is the time between two consecutive conjunctions of the moon, called the change or new moon. This period varies considerably, in consequence of the variation of the eccentricity of the moon's orbit.

A *mean lunation* is, according to Laplace, 29*d.* 12 *h.* 44 *m.* 2·8032 *s.*, and the excess in each year is 11 days, from which the epact or moon's age at the commencement of any year may be found; and this is used for finding the moon's age at any time in the year.

A *day* is that portion of time in which the earth makes one complete revolution on its axis, and is measured by the interval between two successive transits of any fixed star over the same meridian. The *civil day* is reckoned from one midnight to another, being divided into two periods of hours counted from one to twelve, twice over, among the ancient Egyptians and Romans, with modern English, Dutch, Germans, Spaniards, and Portuguese; but in astronomical calculations, the day is always supposed to begin at noon, and to end at the noon of the following day, the hours being reckoned up to 24. Therefore, if civil time be P. M. it agrees with astronomical time; but if the civil time is A. M., add 12 hours to it, and the sum will be the corresponding astronomical time of the preceding day.

The Hebrew year is reckoned from the Creation, in lunar years consisting of 12 lunar months of 29½ days each and from new moon to new moon. The Jewish year in general contains 354 days.

The Mahomedan era commences with the introduction of the Mahomedan religion by Mahomet. Their year, like that of the Jews, consists generally of 354 days.

The Chinese divide the night and day into twelve equal parts, beginning their reckoning from midnight. Hence their hours are double the length of ours.

The common Chinese year consists of twelve lunar months and their intercalary year has thirteen. Their months have no subdivision, that is, they have no weeks. Their common way of dating is by the day of the month and the year of the reigning Emperor. As for example, *fifth* of the sixth *moon* in the 12th year of the Kia-King.

The moon with which their year commences, is that which falls nearest to the fifteenth degree of *Aquarius*, corresponding to the 3d or 4th of February.

The Chinese have no particular days for religious worship. Their great festival is the first of the year, on which day they shut up their shops, dress in their best clothes, and pay visits.

Explanation of Feasts and Festivals.

THE DAY of CIRCUMCISION, or NEW YEAR'S DAY.—This day was kept as a festival by the Greeks in celebration of the completion of the Sun's annual course, and by the Romans in honor of their god Janus. The Day of Circumcision was instituted in the Christian Church A. D. 487, and introduced into the English Liturgy in 1550 in commemoration of the Circumcision of our Lord Jesus Christ, eight days after his Nativity.

EPIPHANY, TWELFTH-DAY, or OLD CHRISTMAS Day,—is kept as a festival throughout Christendom in commemoration of the manifestation of the Lord Jesus Christ upon earth. Antiently it was celebrated as the Feast of the Nativity during twelve days, namely, from Christmas unto the 12th day onwards. The first and last of these days were denominated the *greater* and *lesser* Epiphany. The first, on account of the Lord Jesus having on that day assumed the human form; and the second, on account of the appearance of the star which conducted the Wise men from the East to Bethlehem, there to worship the infant Saviour.

CANDLEMAS DAY, PURIFICATION of the VIRGIN MARY,—was antiently called the day of *Christ's Presentation;* and is still kept as a solemn festival in memorial of the humiliation of the Blessed Virgin Mary, who whilst submitting to the Law that enjoined personal purification after childbirth, presented the infant Jesus in the Temple.

SEPTUAGESIMA, SEXAGESIMA, QUINQUAGESIMA, and QUADRAGESIMA SUNDAYS, are so called to signify in even and round numbers, the seventieth, sixtieth, fiftieth, and fortieth day before Easter.

SHROVE TUESDAY.—This day, preceding the first day of Lent, is so called from the Saxon word *Shrive*, to confess; because in antient times, on this day, every person in England was obliged to confess to his own parish priest in his own parish church.

ASH WEDNESDAY, THE FIRST DAY OF LENT.—Originally so called from the custom that prevailed of penitents, when admitted to the Church to express humiliation on account of their sins, appearing clothed in *sackcloth*, and having *Ashes* sprinkled on their heads.

LENT, signifies *spring*. The forty days before Easter, therefore, being observed by Christians as days of humiliation, fasting and prayer, were called the Spring, or Lenten Fast.

LADY DAY,—is celebrated throughout the Christian world under the title of *The Annunciation of the Blessed Virgin Mary*, or the day on which Almighty God sent the Angel Gabriel to announce to her the fulfilment in her person of the prophecies that foretelling the wondrous scheme of salvation, declared a Virgin should conceive and bear a Son, &c.—(See Gen. iii. 15: Is. vii. 14; ix. 6: Mic. v. 2, &c.)—Lady day is also in civil calculation, the 1st of the four quarter-days, as they are called, of the year.

PALM SUNDAY.—The Sunday before Easter, commemorated throughout the Christian Church, as the anniversary of our Saviour's last entry into Jerusalem, when the people took branches of Palm, and went forth to meet him and cried, Hosanna: blessed is the King of Israel, who cometh in the name of the Lord. This day is also called *Passion Sunday*, as the first day of the Passion week.

GOOD FRIDAY, called also HOLY FRIDAY; is the day which from the earliest period in the Christian Church has ever been kept in solemn awful remembrance of the Crucifixion of our blessed Lord and Saviour Jesus Christ.

EASTER SUNDAY.—The day on which the Lord Christ rose triumphant from the grave; and since then ever kept throughout all Christendom as a *Great Day*, a *Feast of Feasts;* and a *Sunday of Joy*. In secular transactions it is the most important of all the moveable feasts, as the day on which it falls regulates all the rest.

ROGATION SUNDAY,—the fifth Sunday after Easter, takes its name from the Latin word *rogare*, to beseech; the early Christians having appointed extraordinary prayers and supplications on the Monday, Tuesday and Wednesday succeeding it.

HOLY THURSDAY OR ASCENSION DAY, is the day on which the Church celebrates the Ascension of our Lord into heaven.

WHIT SUNDAY, OR PENTECOST.—This day is held by the Christian Church as a solemn festival, in commemoration of the descent of the Holy Ghost upon the Apostles on the day of Pentecost. On this day in early times converts to Christianity were most usually admitted to the Church by Baptism; they were baptised clothed in white; hence it became termed *White* Sunday, from which in later times was derived the term Whit Sunday.

TRINITY SUNDAY.—This is the Sunday following Whit Sunday; and on this day, the Christian Church more particularly calls to mind the doctrine of the Holy Trinity.

ADVENT SUNDAY;—commences the season set apart by the Church as preparatory to the festival of Christmas. On this season we are not only called upon to contemplate the inestimable blessings conferred on mankind by the coming of our Lord to "take away the sin of the world," but also to prepare for that second coming, when He will appear to "judge the world in righteousness."

CHRISTMAS DAY, or THE FESTIVAL OF THE NATIVITY,—commemorates the birth of our blessed Saviour—GOD manifest in the flesh—"to whom be glory and majesty dominion and power, both now and ever. AMEN."

Principal Native Festivals.

SINGHALESE.

1.—AWURUDU-MANGALLE, the feast of the New Year, April 12.

2.—The day of anointing the head with oil after the New Year. This day is fixed by the Astrologer, and is generally celebrated a few days after the New Year.

3.—Full moon day of the month *Wesak* (April—May) The ordination of Budhist Priests at the Establishments of Kandy and other places generally takes place on this day; as well as pilgrimages to the Budhist Temples at Kalany and other sacred places in the Island.

4.—PERAHARRA, or *the Procession*, formerly celebrated exclusively in honor of the Indian deities Natha, Vishnu, Katragam, and Pattini; but incorporated with the worship of Budha in the year 1775. It is held in Kandy and sundry other places in Udunuwera, Yatinuwera, Harispattoo Udupalata, Hewahetta, Matale, Four Korles, Saffragam, Ouvah and Seven Korles; commencing usually from the New and lasting to the Full moon in the month of July.

5.—KAARTKA-MANGALLE, the *Festival of Lamps*, celebrated in honor of Maha-Bali, the great mythological hero of India, and consisting of a general illumination for one night. This is a Kandyan Festival, and is not observed in the Maritime Provinces.

6.—ALOOTSAAL MANGALLE, the *Festival of New Rice*. This is also a Kandyan Festival, celebrated in the month of January.

7.—Pious Budhists also regard the Full, New, and First and Last Quarters of the Moon as holidays, and in general devote them to religious and devotional purposes.

Weights and Measures.

1. MEASURE OF LENGTH.

12	Inches	=	1 Foot
3	Feet	=	1 Yard
5½	Yards	=	1 Rod or Pole
40	Poles	=	1 Furlong
8	Furlongs	=	1 Mile
69 1-9	Miles	=	1 Degree of a Great Circle of the Earth.

An inch is the smallest lineal measure to which a name is given, but subdivisions are used for many purposes. Among mechanics the inch is commonly divided into *eighths*. By the Officers of the revenue, and by scientific persons, it is divided into *tenths*, *hundredths*, &c. Formerly it was made to consist of 12 parts called *lines*.

Particular Measures of Length.

A Nail	= 2¼	Inches	} Used for measuring cloth of all kinds.
Quarter	= 4	Nails	
Yard	= 4	Quarters	
Ell	= 5	Quarters	
Palm	= 3	Inches	
Hand	= 4	Inches—Used for height of horses	
Span	= 9	Inches	
Cubit	= 1	Foot 6 Inches	
Military Pace	= 2	Feet 6 Inches	
Geometrical Pace	= 5	Feet	
Fathom	= 6	Feet—Used in measuring depths	
Link	= 7	Inches 92 hdths.	} Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Chain	= 100	Links	
Mile	= 80	Chains	

2. MEASURE OF SURFACE.

			144	sq. Inches	=	1 sq. Foot
1296	sq. Inches	=	9	sq. Feet	=	1 sq. Yard
272¼	sq. Feet	=	30¼	sq. Yards	=	1 Perch or Rod.
4356	sq. Feet	=	16	Perches	=	1 sq. Chain
10890	sq. Feet	=	2½	sq. Chains	=	1 Rood
43560	sq. Feet	=	4	Roods	=	1 Acre
3097600	sq. Yards	=	640	Acres	=	1 Mile

Particular Superficial Measures.

Square of flooring, &c.	=	100 sq. Feet
Rod of Brick-work	=	272·25 sq. Feet
Load of Inch boards	=	600 sq. Feet
Yard of Land	=	30 Acres
Hide of do.	=	100 Acres

In some places it is customary to allow 324 Sq. Feet to a Rod; sometimes a Rod=21 Feet long and 3 Feet high = 63 Sq. Feet.

3. NAUTICAL MEASURES.

6082·66	Feet	= 1	Nautical Mile
3	Miles	= 1	League
20	Leagues	= 1	Degree
360	Degrees	=	The circumference of the Earth.

A Degree of the Meridian in the latitude of England at the medium of 52° was found by Colonel Mudge in 1800, to equal 69·114 English Miles. A sea league is therefore 3·4557 English miles in the same latitude.

4. MEASURES OF SOLIDITY AND CAPACITY.

Division 1.—Solidity.

1728	Cubic Inches	=	1 Cubic Foot
27	Cubic Feet	=	1 Cubic Yard
10648000	Cubic Yards	=	1 Cubic Rod Pole or Perch
64000	Cubic Rods	=	1 Cubic Furlong
512	Cubic Furlongs	=	1 Cubic Mile

Particular Cubic Measures.

A Load of rough Timber	=	40 Cubic feet
Load of Squared Timber	=	60 do.
Ton of Shipping	=	40 do.
Barrel bulk	=	5 do.
Floor of earth	=	324 do.

A Cord of wood=8 ft. long 4 ft. broad, and 4 ft. deep, 128 cubic feet; a stack of wood 12 ft. long, 3 ft. broad, and 3 ft. deep=108 cubic feet; a solid yard of earth=1 load. A cubic foot of water weighs 1000 ounces avoirdupois, or 911 oz. 9 dwts. 4 grs., troy.

DIVISION II.—CAPACITY.

4 Gills	= 1 Pint	=	$34\frac{3}{4}$	—cub. ins., nearly.
2 Pints	= 1 Quart	=	$69\frac{1}{3}$	———————
4 Qts.	= 1 Gallon	=	$277\frac{1}{4}$	———————
2 Gall.	= 1 Peck	=	$554\frac{1}{2}$	———————
8 Gall.	= 1 Bushel	=	$2218\frac{1}{5}$	———————
8 Bush.	= 1 Quarter	=	$10\frac{1}{4}$	cub. feet nearly.
5 Qrs.	= 1 Load	=	$51\frac{1}{5}$	———————

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz:—For Beer the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 Gallons. These will probably continue to be used in practice. For Wine, and Spirits, there are the Anker, 10, Runlet 18, Barrel, $31\frac{1}{2}$, Tierce 42, Hogshead 63, Puncheon, 84, Pipe or Butt, 126, and Tun, 252 Gallons; but these may be considered rather as the names of the casks in which such commodities are imported than as expressing any definite number of Gallons: a Pipe of Claret containing 126; Port 138; Sherry, 130; Lisbon, 140; Bucellas, 140; Madeira, 110; and Vidonia, 120 Gallons. It is the practice to gauge all such vessels and to charge them according to their actual contents.

Flour is sold nominally by measure, but actually by weight, reckoned at 7lbs. Avoirdupois to a Gallon.

A load of corn=5 bushels; a cart load of corn=40 bushels, and 7922 wheat or barley-corns are supposed to fill a pint measure.

5. MEASURE OF WEIGHT.

DIVISION 1.—AVOIRDUPOIS WEIGHT.

$27\frac{11}{32}$ Grains	= 1 Dram	=	$27\frac{11}{32}$	gr. Troy.
16 Drams	= 1 Ounce	=	$437\frac{1}{2}$	--
16 Ounces	= 1 Pound (lb.)	=	7000	
28 Pounds	= 1 Quarter (qr.)			
4 Quarters	= 1 Hundredweight (cwt.)			
20 Cwt.	= 1 Ton.			

This weight is used in almost all commercial transactions, and in the common dealings of life.

The particular weights belonging to this Division are as follows:—

			cwt.	qr.	lb.	
7 Pounds	= 1 Clove					
2 Cloves	= 1 Stone	=	0	0	14	Used in the Wool Trade.
2 Stones	= 1 Tod	=	0	1	0	
$6\frac{1}{2}$ Tods	= 1 Wey	=	1	2	14	
2 Weys	= 1 Sack	=	3	1	0	
12 Sacks	= 1 Last	=	39	0	0	

Several sorts of Silk are weighed by the Great Pound of 24 oz.

Particular Weights.

A firkin of Butter	=	56 lbs.
,, —— —— Soap	=	64 ,,
,, Barrel of Raisins	=	112 ,,
,, ———— Soap	=	256 ,,
Puncheon of Prunes	=	1120 ,,
Barrel of Anchovies	=	30 ,,
Fodder of Lead		
,, London and Hull	=	$19\frac{1}{2}$ cwt.
,, Stockton	=	22 ,,
,, Bawtry	=	$21\frac{1}{2}$,,
,, Chester	=	20 ,,
,, Derby	=	$22\frac{1}{2}$,,
,, Newcastle	=	21 ,,

The cwt. of Lead at Hull and Chester	=	120	lbs.
Stone of Iron or shot	=	14	,,
——— Butcher's meat in London	=	8	,,
——— in Country	=	14	,,
Clove of Butter or Cheese	=	8	,,
Suffolk way, 32 Cloves	=	256	,,
Essex way, 42 Cloves	=	336	,,
Imperial Gallon of Train oil	=	9	,,
Truss of Straw	=	36	,,
——— New hay	=	60 to 64	
——— Old hay	=	56	,,
Load	=	36 trusses.	

Division II.—Troy Weight.

24 Grains	=	1	Pennyweight	=	24 gr.
20 Pennywts.	=	1	Ounce	=	480 —
12 Ounces	=	1	Pound	=	5760 —

These are the denominations of Troy weight, when used for weighing gold, silver, and precious stones (except diamonds.)

For scientific purposes the grain only is used; and sets of weights are constructed in decimal progressions from 10,000 grains downwards to 1-100 of a grain.

By comparing the number of grains in the Avoirdupois and Troy pound and ounce respectively, it appears that the Troy pound is less than the Avoirdupois in the proportion of 14 to 17 nearly; but the Troy ounce is greater than the Avoirdupois, in the proportion of 72 to 79 nearly.

The *carat* used for weighing diamonds, is 3 1-6 grains. The term, however, when used to express the fineness of gold, has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts; thus the standard for coin is 22 carats fine, that is, it consists of 22 parts of pure gold, and 2 parts of alloy. What is called the *new standard,* used for watch-cases, &c., is 18 carats fine.

Division III.—Apothecaries Weight.

20 Grains	=	1	Scruple	=	20 gr.
3 Scruples	=	1	Dram	=	60 —
8 Drams	=	1	Ounce	=	480 —
12 Ounces	=	1	Pound	=	5760 —

6. FLUID MEASURE, *used by Apothecaries.*

2 Drams Avoird.	=	60 Minims	} =	54 11-16 grs. Troy	
60 Minims	=	1 Fluid dram			
8 Drams	=	1 Ounce	=	437½	,,
20 Ounces	=	1 Pint	=	8750	,,
8 Pints	=	1 Gallon	=	70000	,,

Irregular Measures.

A table spoonful, *cochlearium magnum*, of syrup, ½ oz.
——————— of distilled waters, 3½ dr. to ½ oz.
——————— of spirits and tinctures, 2 dr. to 3 dr.
A dessert-spoonful, *cochlearium mediocre*, of water, 2 dr.
A tea-spoonful, *cochlearium parvum*, of syrup, 1 dr. to 2 dr.
——————— of distilled waters, 1½ sc. to 2 sc.
——————— of spirits and tinctures, 1 sc. to 1½ sc.
——————— of light powder, as magnesia, ½ sc. to 1 sc.
——————— of a heavy powder, as sulphur, 1½ sc. to 2 sc.
——————— of a metallic oxide, 1 dr. to 4 sc.
A thimble-full, *clypeola metallica prodigiti*, is usually the same as a tea-spoonful.
A tea-cup, *vasculum pro thea*, 3 oz. to 4 oz.
A wine-glass, *scyphus pro vino, cyathus*, 1½ oz.

7. ANGULAR MEASURE;

OR, DIVISIONS OF THE CIRCLE.

60 Seconds	= 1 Minute	=	4 Seconds of Diurnal motion of the Earth reduced to time.
60 Minutes	= 1 Degree	=	4 Minutes
15 Degrees	= ½ Sign of the Zodiac	=	1 Hour
30 Degrees	= 1 Sign	=	2 Hours
90 Degrees	= 1 Quadrant	=	6 Hours
360 Degrees, or 12 Signs	= 1 Circumference	=	24 Hours.

Formerly, the subdivisions were carried on by sixties; thus the second was divided into 60 thirds, the third into 60 fourths, &c. At present the second is more generally divided decimally into 10ths, 100ths, &c. The degree is frequently so divided.

The Zodiac is an imaginary belt encompassing the heavens, divided into 12 equal parts of 30 degrees each, called the Signs of the Zodiac. It extends about eight degrees on each side of the Ecliptic, and within it all the motions of the Planets are performed, except those of the new discovered asteroids, Ceres, Pallas, etc.

Signs of the Zodiac, and the Days on which the Sun enters them.

NORTHERN CONSTELLATION.

♈ Aries	the Ram	Appears in a line with the Sun.	March	20
♉ Taurus	the Bull		April	19
♊ Gemini	the Twins		May	21
♋ Cancer	the Crab		June	21-22
♌ Leo	the Lion		July	23
♍ Virgo	the Virgin		August	23

SOUTHERN CONSTELLATION.

♎ Libra	the Balance	Appears in a line with the Sun.	September	23
♏ Scorpio	the Scorpion		October	23
♐ Sagittarius	the Archer		November	22
♑ Capricornus	the Goat		December	22
♒ Aquarius	the Waterbearer		January	19
♓ Pisces	the Fishes		February	18

8. MEASURE OF TIME.

60 Seconds	=	1	Minute
60 Minutes	=	1	Hour
24 Hours	=	1	Day
7 Days	=	1	Week
28 Days	=	1	Lunar Month
28, 29, 30, or 31 Days	=	1	Calendar Month
12 Calendar Months	=	1	Year
365 Days	=	1	Common year
365¼ Days	=	1	Julian Year
366 Days	=	1	Leap year

In 400 Years, 97 are Leap years, and 303 Common.

The same remark as in the case of Angular Measure applies to the mode of subdividing the Second of time.

THE NATIVE DRY MEASURE.

Cut Chundoos.

4	=	1	Cut	Measure or Seer				
19⅕	=	4	4-5	1	Coornie.			
48	=	12	=	2½	=	1	Marcal.	
96	=	24	=	5	=	2	=	1 Parrah.
768	=	192	=	40	=	16	=	8 = 1 Ammunam.
7200	=	1800	=	375	=	150	=	75 = 9⅜ = 1 Last.

The English Bushel is equal to 34 Seers or 1 Parrah and 10 Seers.

THE NATIVE LAND MEASURE.

Lahas
8 = 1 Coornie.
80 = 10 = 1 Peyla.
320 = 40 = 4 = 1 Ammonam.

Among the Natives the extent of Land is defined by the quantity of Seed required to sow it, computed at the Ammonam Measure, and its sub-divisions. In fertile Lands the Seed is not strewed half so thickly as in poor soil; an Ammonam of good ground therefore will sometimes measure twice as many square feet as an Ammonam of poor soil.

BRITISH INDIA.—GOVERNMENT WEIGHTS AND MEASURES.

1 tola = 180 troy grains; 80 tolas = 1 seer, $2\frac{1}{4}$ lbs. troy; 40 seers = 1 maund = 83 2-15th lbs. avoir. (or 100 lbs. troy.) Grain is usually sold by weight throughout India.

Calcutta.—The guz = 1 imp. yard; The Bengal common coss or mile = 2000 yards; $30\frac{1}{4}$ biggan = 10 imp. acres; the factory maund of 40 seers = $74\frac{3}{4}$ lbs. avoir. the bazaar maund = 82 2-15th lbs. avoirdupois.

Madras.—The covid in cloth measure = 18 3-5ths inches; but the English yard of 36 inches is generally used; the cawny in land measure = 57,600 square feet, or about 1 acre, 11 roods and $1\frac{1}{2}$ poles; the garze of 80 parahs or 400 marcals in corn or dry measure = about $16\frac{7}{8}$ imp. quarters or by weight $9256\frac{1}{2}$ lbs. avoir.; 20 ollocks = 1 English Gallon; the maund of 8 vis, in measures of weight = 25 lbs. avoir.; the candy = 20 maunds or 500 lbs. avoirdupois.

In Calcutta, Madras, and Bombay, accounts are kept in rupees, annas and pice, thus 12 pice = 1 anna; 16 annas = 1 rupee; $3\frac{1}{2}$ rupees exchange in account for 1 pagoda. In Ceylon accounts are kept in English currency; English weights are in use here, and the long and land measures are the same as in England; the covid is $18\frac{1}{2}$ English inches.

Bombay.—The guz. = 27 inches; the maund of 40 seers = 28 lbs. avoir.; the candy of 20 maunds, each of 40 seers = 5 cwt., reckoned for grain at $24\frac{1}{4}$ imp. bushels; the Surat candy of 20 maunds = $740\frac{2}{3}$ avoirdupois.

China.—Measures of Weight....100 catties = 1 pecul = $133\frac{1}{3}$ lbs. avoir.; 16 peculs and 80 chatties = 1 ton; 3 peculs = 400 lbs. avoir.; $\frac{3}{4}$ catty = 1 lb.; 3 catties = 4 lbs. 84 catties = 1 cwt.; 12 taels = 1 lb. avoir. Cloth Measure....32 covids = 13 imp. yards. Itinerary Measure....Li, 180 fathoms = 632 yards; 200 lis = 1 degree.

The Chinese have four different measures answering to the foot; viz.,—

The foot of the mathematical tribunal, English inches.	13·125
The builder's foot, called konghee	12·7
The tailor's and tradesman's foot	13·33
The foot used by engineers	12·66

United States.—Same as Britain, with former English measures of capacity: a barrel of flour weighs 196 lbs. nett; a barrel of pickled beef or pork 200 lbs.

WEIGHTS OF ENGLISH COINS.

	dwt.	gr.

RULE—Multiply the principal by the rate, both in pounds; multiply the product by the number of days, and divide this last product by 100; then take from the above table the several sums which stand opposite the several parts of the quotient, and add them together for the interest required.

EXAMPLE—What is the interest of 225*l.* 10*s.*, for 23 days at 4½ per cent.

				l.	*s.*	*d.*	*q.*
principal	225·5*l.*						
rate	4·5		against 200 is	0.	10.	11.	2.03
	1014·75		30	0.	1.	7.	2·90
			3	0.	0.	1.	3.89
days	23		0·3	0.	0.	0.	0·79
	100)23339·25	Then in the table	0·09	0.	0.	0.	0·24
	233·3925		*Ans.*=	0.	12.	9.	1·85 true

in the last place of decimals.

To find what the amount of a yearly income or salary (from 1l. to 1,000,000l.) will come to for one day.

RULE—Collect the tabular sums answering to the given annual income or rent, and add them together for the answer.

An estate of 376*l.* per annum; what is that per day?

300 =	0.	16.	5¼	·04
70 =	0.	3.	10	·11
6 =	0.	0.	3¾	·78
376 =	1.	0.	7	·53 *Ans.* 1*l.* 0*s.* 7*d.*

List of Ordinances passed by the Legislative Council of Ceylon, in the Year 1861.

No. 1.—To empower the Secretary of State to extend the period for the payment of Debentures created by the Ordinance No. 10 of 1860.

2.—To repeal the Ordinance No. 23 of 1844, and to enable Bankers to compound for the Stamp Duties payable on Notes and Bills issued by them.

3.—To authorize the formation of Volunteer Corps in this Colony, and to provide for the good order and discipline thereof.

4.—To promote the establishment of Joint Stock Companies, both with unlimited and limited liability.

5.—Relating to Wrecks, Sea-casualties, and Salvage.

6.—To repeal the Ordinance No. 3 of 1857, and to declare the consent of the Legislature of this Colony for placing Light-Vessels on the Basses Rocks, and to the collection of Dues in respect thereof.

7.—To make provision for the Stowage of Goods in the Customs Warehouse.

8.—To amend the Ordinance No. 13 of 1859.

9.—To apply a sum not exceeding Forty thousand One hundred and Ninety-two pounds, Two shillings, and Nine pence Three farthings, to defray the Supplementary Contingent charges of the year 1861.

10.—To consolidate and amend the laws relating to Public Thoroughfares in this Colony.

11.—To consolidate and amend the Law relating to Stamp Duties.

12.—To repeal the Ordinances No. 15 of 1858 and No. 10 of 1859.

13.—To amend and consolidate the laws relating to Police Courts.

14.—To amend the Ordinance No. 23 of 1848.

15.—To provide for the payment in part of the Debt due to the Ceylon Railway Company.

16.—To amend the law respecting the payment, in certain cases, of the expenses of Witnesses, and of Medical Practitioners.

17.—To empower Henry Rudd, Richard Rudd, and George William Rudd, Esquires, to construct and use a Road from the high-road between Kandy and Kaliboka to a certain Coffee Estate called Pangwelle Coffee Estate, through lands belonging to certain persons.

18.—For giving effect to certain Rules and Orders for the Police Courts.

19.—To apply a sum not exceeding Four hundred and Sixty-eight thousand Six hundred and Seventy-three pounds, Thirteen shillings and Six-pence farthing, to the Contingent Service of the year 1862.

20.—Relating to Contracts for the hire and service of Labourers in this Colony.

21.—For securing the better enforcement of Ancient Customs regarding the Irrigation and Cultivation of Paddy Lands, and for the maintenance of rights and works connected therewith, and for making other provisions relating thereto.

22.—To consolidate and amend the Law in respect to the collection of Tolls.

Minutes on Pensions.

MINUTE

BY THE GOVERNOR.

1.—UNDER Instructions from the Right Honorable the Secretary of State, His Excellency the Governor is pleased to direct, that the following Rules respecting Pensions to the Public Servants of this Colony, be published for general information.

2.—Subject to the Exceptions and Provisions hereinafter contained, all Public Servants on the Fixed Establishment of the Island, drawing a salary of £25 and upwards, shall be entitled to Pensions, as follows:—

To any person who shall have served Ten years and upwards, and under Eleven years, an Annual Allowance of Fifteen-sixtieths of the annual salary of his office.

For Eleven years, and under Twelve years, an Annual Allowance of Sixteen-sixtieths of such salary.

And in like manner a further addition to the Annual Allowance of One sixtieth in respect of each additional year of such service, until the completion of a period of service of Thirty-five years, when the Annual Allowance of Forty-sixtieths may be granted; and no addition shall be made in respect of any service beyond Thirty-five years.

3.—The Surveyor General, Assistant Surveyors and Draftsmen, shall be entitled to Pensions as follows:—

To any person who shall have served Ten years and upwards, and under Eleven years, an Annual Allowance of Twenty-sixtieths of the annual salary of his Office.

For Eleven years, and under Twelve years, an Annual Allowance of Twenty-one-Sixtieths of such salary.

And in like manner a further addition to the Annual Allowance of One-sixtieth in respect of each additional year of such service, until the completion of a period of service of Thirty years, when the Annual Allowance of Forty-sixtieths may be granted: and no addition shall be made in respect of any service beyond Thirty years.

4.—Any Public Servant of the Colony already, or to be hereafter elevated to the Office of Governor of Ceylon, shall, on his retirement from that Office, be entitled to the same pension as if he had continued to hold the Office which he vacated when he was appointed Governor, and (supposing him not to be fifty-five years of age) as if he had retired from ill health. Provided, that if there shall be offered to any such Ex-Governor, being under the age of fifty-five years, any Public Office or Situation under the Crown, which, having reference as well to the state of his health as to the nature of his previous services, such Ex-Governor may, in the judgment of the Lords Commissioners of Her Majesty's Treasury, be properly called upon to accept; it shall be competent to the said Lords Commissioners to declare that the Pension of such Ex-Governor shall be suspended, either during his tenure of such Office or Situation, in case he shall accept the same; or in case of his non-acceptance, until he shall attain the age of fifty-five years.

5.—The Pensions of the Judges of the Supreme Court are not affected by this Minute. They will, in all respects, continue to be regulated by the Minute of the 5th December, 1846.

6.—In case of the elevation of the Queen's Advocate to the Bench of the Supreme Court, half of his period of service as Queen's Advocate shall be reckoned towards his Pension.

7.—No Public Servant will be held to have an absolute right to compensation for past services, or to any Pension under this Minute; and Government will retain power and authority to dismiss any Public Servant without compensation.

8.—No Pension will be granted to any Public Servant without the authority of Her Majesty's Government, in order to obtain which, Certificates of Service, Age, Good Conduct, and of the ground of retirement, must be submitted to the Secretary of State.

9.—No Pension shall be granted to any Public Servant, who shall be under fifty-five years of age, unless upon Certificate from the Head of the Department to which he may belong, and from two Medical Practitioners, that he is incapable, from infirmity of mind or body, to discharge the duties of his situation; nor, unless he shall have discharged those duties with diligence and fidelity, to the satisfaction of the Head of his Department. And in case the Officer claiming such Pension shall be himself the Head of a Department, then such Pension shall not be granted, unless he shall have discharged the duties of his Office with diligence and fidelity, to the satisfaction of the Governor, by whom the same shall be certified to the Secretary of State.

10.—It will be competent to Her Majesty's Government, in cases of peculiar and extraordinary merit, to grant special and higher rates of Pension than those laid down in this Minute.

11.—The abovementioned rates are only to be granted in cases of decidedly faithful and meritorious service; but where the testimony as to fidelity, diligence, and merit, is in any respect defective, a deduction will be made from the apportioned rates. Where there has been obvious negligence, irregularity or misconduet, the grant of Allowance will be altogether withheld.

12.—The claim of a Public Servant to Pension will be considered to have commenced from his first permanent appointment to the Fixed Establishment of the Island.

13.—Writers appointed since the 30th July, 1853, in the Civil Establishments of this Colony, will date the commencement of their claim to Pension from the period at which they may obtain the Certificate, required by the 19th Clause of the Minute of the 14th February, 1845, as to their general attainments and proficiency in the Native Language, and as to their competency to fill an appointment in the Service. Writers appointed before the 30th July, 1853, will date the commencement of their claim to Pension from the date of their appointment as Writers.

14.—The services in respect of which Superannuation Allowances are granted, ought, in all cases to have been continuous; unless interrupted by reduction of Office or other temporary suspension of employment, not arising from misconduct, or voluntary resignation of the party.

15.—The Pension shall be computed upon the amount of the Salary enjoyed by a Public Servant at the time of his retirement: Provided he shall have been in the receipt of the same, or in the same Branch and Class of the Service, for at least three years; otherwise the Pension shall be calculated upon the average amount of Salary received by such person for three years, next preceding the commencement of such Pension.

16.—In case of suspension or reduction, or abolition of office, Temporary Allowances may be assigned, agreeably to the specified rates; on condition, however, that the parties receiving the same will be liable to be recalled into Service, and with the understanding that they are to be re-employed, as opportunity may offer, in preference to new applicants for office.

17.—Every Officer on the Provisional Establishment will, in the event of transfer to the Fixed Establishment, be entitled to reckon his temporary service, when it has been continuous, with his subsequent permanent service.

18.—All Pensions to be allowed under this Minute shall be reckoned on the Salary of the permanent Office only.

19.—The period of service upon which the Superannuation Allowance of all Officers appointed to the Public Service, taking leave of absence in the regular manner with abatement of salary will be calculated, will be at the rate of one month for every two months of such leave.

20.—The above Rule shall apply to all Public Servants who have been appointed since the 1st September, 1852. Those who were appointed before that time will continue to be entitled to have the entire period of their absence calculated.

21.—Should the term of service not warrant the assignment of an Annual Allowance, a Gratuity may be granted, after the rate of One Month's Salary for each year of service.

22.—The Minutes of 3rd July, 1845, 28th August and 19th September, 1846, 30th January, 1847, 31st July, 1848, 12th September, 1849, 1st September, 1852, and 16th September, 1857, are hereby repealed.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, July 26th, 1861.

W. C. Gibson,
Col. Secy.

MINUTE

FOR THE JUDGES OF THE SUPREME COURT.

His Excellency the Governor is pleased to announce, that the Right Hon'ble the Secretary of State has authorised the establishment of a Scheme of Pensions for the Judges of the Supreme Court of this Island, under the following Regulations.

A Judge who is unable, after 15 years' service as such, to continue efficiently to discharge the duties of his Office, will be entitled to a Pension not exceeding one-half of his Salary; such Pension will not however be increased in consequence of prolonged service beyond fifteen years.

In the event of a Judge being compelled by ill health to retire after a service of 7 years, but less than 15 years, he will be permitted, on producing a Medical Certificate of incapacity to continue in the discharge of his duties, to retire on a Pension not exceeding one-fourth of his Salary.

To a Judge who should retire before completing 7 years' service no Pension will be granted.

No Judge will be held to have an absolute right to compensation for past services, or to a Pension under this Minute: and no Pension will be granted without the authority of Her Majesty's Government; in order to obtain which, Certificates of service, age, and the grounds of retirement will be submitted to the Secretary of State.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 5th December, 1846.

J. E. TENNENT,
Col. Secy.

MINUTE

BY THE GOVERNOR.

WITH reference to the Ordinance No. 1 of 1858, "*For establishing permanently certain Public Expenditure*," HIS EXCELLENCY THE GOVERNOR is pleased to notify, that as it was not the intention of Her Majesty's Government, that present holders of Office should in any way suffer by reductions effected by the new Scale of Salaries brought into operation by the said Ordinance; Officers on the Fixed Establishment, the Salaries of whose situations have been reduced, or whose situations are proposed to be abolished, or transferred to the Provisional Establishment, will retain the claim to Pension which they now enjoy.

The Officers named in the annexed List, (No. 1.), will therefore, in the event of their retiring whilst holding their present appointments, be entitled to Pension on the Salaries hitherto received by them, although the full amount of their salary be not drawn on the Fixed Abstract.

The Officers named in the annexed List, (No. 2.), whose situations have been transferred from the Fixed to the Provisional Establishment, and the Officers named in the List No. 3, whose situations are proposed to be abolished, will, in the event of their retiring whilst holding their present situations, be also entitled to Pension on the Salaries now received by them, although such Salaries are borne on the Provisional Abstract.

MINUTE

BY THE GOVERNOR.

UNDER Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that the Second section of the Minute of the 15th October, 1838, relative to the remuneration to be granted to an Officer appointed to perform the duties of an absent Officer in addition to his own, is to be considered as superseded for the future, by the following Rule laid down in the Book of Regulations for Her Majesty's Colonial Service:—

"If an office be vacated in any Colony, by the death or removal of the holder, or by his temporary absence, the person appointed by the Governor to act in his stead, if holding an inferior situation, may receive half the salary attached to the higher office, together with half the salary of his own office.

"Should the person so appointed by the Governor to a vacant office, be required at the same time to perform the duties of his own office, he may be allowed half the salary of the temporary office, together with the salary of his own office."

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, August 3rd, 1855.

C. J. MacCarthy,
Col. Secy.

MINUTE

BY THE GOVERNOR.

His Excellency the Governor is pleased to notify, that in the case of all Acting Appointments in the lower grades of the Civil Service, which may not be held by Writers on the Establishment,—whose case is specially provided for by the Minute of the 3rd March, 1853,—the Officer holding such Acting Appointment will be permitted to draw, in addition to the half salary of the office in which he may be acting, a Contingent Allowance, to make up his salary to £300 per annum.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, July 24th, 1858.

C. J. MacCarthy,
Col. Secy.

NOTICE.

The Governor has received a Despatch from His Grace the Secretary of State, notifying that the Peninsular and Oriental Steam Navigation Company have been relieved from the obligation hitherto imposed upon them, of carrying Government Passengers at a reduced rate of charge.

The Company, however, have undertaken still to provide, at the ordinary rates of fare charged to the Public, accommodation for the same number of Government Passengers in every Steamer, as already stipulated for by the terms of the existing Contracts, viz: Eight first class, and Four second class, without requiring any longer notice than that which has been usually given.

They have also agreed to convey, by every Packet, additional Government Passengers to the extent of Ten first, and Six second class, upon receiving from Her Majesty's Government sufficient notice, varying according to the season of the year, viz:—

For Outward Passengers, intending to embark between the Months of August and March two months' notice; and for those proceeding during the other months of the year, a fortnight's notice.

On Homeward Voyages, a notice of two months to be given in respect of Passengers intending to embark between December and May, and a fortnight's notice in other cases.

Further, the Company will provide separate Cabins, including some of the best Cabins for the Officers of rank, or for married Officers, at the extra rates of passage-money chargeable to the Public for similar accommodation, upon receiving notice as specified above.

It has been arranged that this alteration should be carried into effect from the 1st of June, 1861.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 25th July, 1861.

W. C. Gibson,
Colonial Secretary.

Examinations in Native Languages.

MINUTE
BY THE GOVERNOR.

I HAVE had under my consideration the mode of examining parties desiring to pass an Examination in the Native Languages.

2. It appears to me, that some fixed Rules should be established, defining the nature of the Examination required to be undergone. I therefore propose the following,

3. The Student should be required to translate from two or three of the following works:

In Singhalese.—The Bala Prabhodena.
Histories published by the School Commission.
The Singhalese Regulations of Government.
The Dampiyawa—translated from the Pali.
The Pansiye Panas Jateka.
The Tupawansa.
The Rajawallea.

In Tamil.—The Neethe Venpa.
The Kural.
The Thesavalame or Country Law of Jaffna.
Simon Casie Chitty's Tamil Version of Turnour's Epitome of the History of Ceylon.
The Calladakam.
The Government Ordinances.
The Kambaramayanum.
The Barathum.

4. Translations should also be made from written Olas given by the examiners, also translations of some Cutcherry Papers, of some Leases, Mortgage or other Legal Documents, being usual in the Proceedings of Courts of Justice.

5. All Translations should be fairly written, sealed and sent to the Colonial Secretary.

6. The Student should then be required to translate a Fable from English into Singhalese or Tamil, as the case may be, and to translate part of an Ordinance.

7. The Student should be able to write the Native character well and with fluency.

8. He should be able to write Letters and Orders in the Native language on Judicial and Revenue matters.

9. The Student should be able to read with ease original communications from Headmen and Government Officers, on all Revenue matters, and on all Judicial Reports. Selections from each should be made for this purpose by the examiners.

10. The Student should shew a knowledge of the Grammar of the Language, and be able to parse in it.

11. The Student should be able to converse perfectly and fluently in the Language in which he is examined.

12. I further propose that the Examination should take place half-yearly in the middle of January and the middle of July.

13. That a Board of Examiners should be appointed, consisting of two European Gentlemen, one an Officer of Government, two Native Gentlemen, and a President to be named by the Governor.

The Board should declare whether they consider the Student qualified for the Public Service, and give the character of the Examination passed.

Pavilion, Kandy, May 27th, 1852. G. W. ANDERSON.

MINUTE
BY THE GOVERNOR.

ON the recommendation of the Board of Examiners, His Excellency the Governor is pleased to sanction the following modifications of the Rules laid down in the Minute of the 27th May, 1852, for the Examination of Candidates in the Native Languages.

There will in future be two Examinations: the first to qualify the successful Candidate for holding a first appointment in the Public Service; the second to qualify him for promotion.

At the first Examination, the Candidates will be required to speak with fluency the colloquial language, to read and explain the printed books published by the School Commission, to read and write such documents as are received into, and issued from Cutcherries, and to understand such Notarial or other Deeds as are commonly produced in Evidence in Courts of Justice.

The reading of the Classical books, a knowledge of Grammar, and Translating from English Authors into Singhalese or Tamil, and of Government Ordinances, whether from English into the Native Languages, or *vice versa*, will form the subjects of a second Examination; which will not be held until twelve months after the first.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, August 15th, 1853.

C. J. MacCarthy,
Col. Secy.

MINUTE

BY THE GOVERNOR.

1. Under Instructions from the Right Hon'ble the Secretary of State, His Excellency the Governor is pleased to notify, that Writers on the Civil Establishment of this Colony will in future date the commencement of their Civil Service, from the period at which they may obtain the Certificate required by the 19th clause of the Minute of the 14th February, 1845, as to their general attainments and proficiency in the Native Languages, and as to their competency to fill an appointment in the Service.

2. From the same period also they will date the commencement of their claim to Pension.

* * * *

4. The Secretary of State has been pleased to direct the adoption of the above Rules respecting the commencement of the Civil Service of Writers, and of their consequent claim on the Pension Fund, in the hope that it will act beneficially in encouraging young gentlemen nominated to Writerships, in more speedily acquiring the knowledge necessary to qualify them for the duties they may be called upon to perform.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 30th July, 1853.

C. J. MacCarthy,
Col. Secy.

Travelling Allowances.

MINUTE

BY THE GOVERNOR.

1. In consequence of representations, made from time to time, by Heads of Departments and others, of the inadequacy of the present rates of allowances to Officers, travelling on Public duty, His Excellency the Governor is pleased to direct, that the Scale hereunto annexed, which has been recommended by a Committee appointed to investigate and report upon the subject, be adopted from the 1st instant, in lieu of those laid down in any former Minutes, in regard to travelling allowances, which are hereby cancelled.

2. It is to be understood, however, as a general rule, that Public Officers, who receive a monthly allowance for the keep of a horse, or horses, will not, in future, be deemed entitled to mileage, or travelling charges for journeys not exceeding 15 miles from their place of residence, where the keep of one horse is allowed; or 30 miles where the keep of two horses is allowed.

3. It must be understood also, that, in admitting travelling allowances, it will not in all cases, be deemed necessary to sanction a daily charge, for every day the applicant may be absent from his usual station, or place of residence.

4. In cases where any Officer, included in Classes I., II., and III., is detained from home, for more than one day, although the distance travelled falls short of 10 miles, it may be made a matter of reference to Government, whether the daily allowance should be drawn; but it will be incumbent on the party to shew, that such protracted absence was required for the interests of the Public Service.

5. Full explanation must also be furnished in case of an Officer's lengthened residence, at any station, during a tour on duty.

6. Officers will, in applying for the payment of their travelling allowances, furnish a brief statement of the object of the journey.

7. Assistants, and subordinate Officers having occasion to travel on Public duty, will, when practicable, previously communicate with the Head of the Department: and the Governor trusts to the discretion of Heads of Departments, in giving their sanction to charges of this nature, which may be submitted for their approval.

8. Officers travelling on public duty between Colombo and Kandy, and Colombo and Galle, (with the exception of the Judges and Officers of the Supreme Court, and the Law Officers of the Crown, when travelling on Circuit,) will be allowed, as heretofore, the cost of a seat in the Mail Coach, to and from those places, in addition to the rates of allowances, specified in the Scale hereunto annexed.

9. When an Officer is removed from one station to another, by order of Government, it will be competent for him to apply for an allowance to cover the reasonable expenses, to which he may be put in the removal, and it will be discretionary with the Governor to grant an allowance, in the shape of Mileage, which shall in no case exceed Five shillings a mile.

By His Excellency's Command,

Colonial Secretary's Office,
Kandy, 21st June, 1858.

C. J. MACCARTHY,
Colonial Secretary.

Scale of Daily Allowances to be paid to Public Functionaries travelling on Public duty.

CLASS I.—The Colonial Secretary.—£2 5*s.* per diem, when travelling ten miles from his residence.

CLASS II.—The Queen's Advocate (when not on circuit); the Treasurer; the Auditor General; Government Agents; Surveyor General; Civil Engineer and Commissioner of Roads; Principal Civil Medical Officer; Principal Collector of Customs; Deputy Collector of Customs at Colombo; Principal Assistant Colonial Secretary.—£1. 10*s.* per diem, when travelling 10 miles from their respective residences.

CLASS III.—District Judges; Postmaster General; Assistant Government Agents; Assistants to Civil Engineer and Commissioner of Roads; Assistants to Surveyor General; Superintendent, Botanic Garden; Inspector of Schools; Collector of Customs at Galle.—£1 per diem, when travelling ten miles from their respective residences.

CLASS IV.—Police Magistrates; Justices of the Peace; Coroners and Deputy Coroners, being Justices of the Peace; Superintendents of Vaccination; Assistant Collectors of Customs; Singhalese and Malabar Interpreters to the Governor.—15*s.* per diem, when travelling five miles from their respective residences.

CLASS V.—(Drawing Salaries and Allowances of not less than £30. per annum) Sub-Collectors of Customs; Secretaries of District Courts; Clerks, Interpreters and Translators of Public Offices; Storekeepers, Accountants, &c.; Modliars, Mohandirams, and Principal Headmen; Shroffs and Assistant Shroffs; Draftsmen; Assistants and Inspectors of the Police Department.—8*s.* per diem, when travelling two miles from their residences.

No Native Headman will be entitled to this Allowance, when travelling within his own Division.

Class VI.—(Drawing Salaries and Allowances exceeding £12., and less than £30. a year) Clerks; Translators; Mohandirams, and Native Headmen; Native Writers; Assistant Shroffs and Conicoplies.—3*s.* per diem.

No Native Headman will be entitled to this Allowance, when travelling within his own Division.

CLASS VII.—(Drawing Salaries exceeding £9., and less than £12. per annum.) Head Messengers; Money Counters; Police Serjeants; Subordinate Headmen.—8*s.* per diem.

This Allowance will not be paid to any subordinate Headman, when travelling within his own Division.

CLASS VIII.—Tide-Waiters; Peons; Process Servers; Messengers; Police Constables.—In the Central Province, 1*s.*: in the other Provinces, 9*d.* per diem.

Special Allowances.

Superintendents of Police, when travelling 5 miles from their residences—a shilling a mile, going and returning.

Medical Sub-Assistants, Deputy Coroners, (not being Justices of the Peace,) and Surveyors not paid by the work, when proceeding 4 miles from their residences—Nine pence a mile, going and returning.

Vaccinators, ditto, ditto—Six pence a mile, going and returning.

Fiscals, Deputy Fiscals, and the Private Secretary to the Governor, to be reimbursed the actual expenses incurred by them.

Officers travelling on public duty between Colombo and Kandy, and between Colombo and Galle, will be allowed the cost of a seat in the Mail Coach (if they travel by it) from one station to another, in addition to the rates of Allowances specified in the scale attached to this Minute. On occasions when any Public Officer proceeds to a place and returns on the same day, or when the exigencies of the Public Service require the use of a hired conveyance, he shall be allowed the hire of a carriage, and tolls at the established rates, under the following restrictions:—

Any officer included in Classes I. and II. shall be allowed to make such charge only in cases where he proceeds beyond 10 miles from his residence.

Any officer included in Classes III. and IV. shall be allowed to make such charge only when he proceeds beyond 5 miles from his residence.

Other officers, such as Interpreters, Clerks, &c., who are entitled, in the opinion of the Head of the Department, to such means of conveyance, shall be allowed to make the charge, when proceeding beyond the gravets or limits of the town in which they reside.

Officers in receipt of Horse Allowances are excluded from the operation of the above Rule.

Whenever a journey can be more expeditiously or cheaply performed by water than by land, Public Officers will be allowed to charge the hire of boats or vessels employed in the transport of themselves and their baggage. In such cases, the Daily Allowances specified in the preceding Schedule will not be granted in addition to carriage or boat hire, except when the officer has been subjected to extraordinary expenses in the prosecution of his journey, which should be made matter of special representation to Government.

Scale of Daily Allowances to be paid to the Judges and Officers of the Supreme Court as fixed by the Governor's Minute of the 1st August, 1856.

	Northern Circuit.			Midland and Southern Circuits.		
	Per diem.			Per diem.		
The Judges of the Supreme Court, at the rate of	£3	0	0	£2	5	0
Queen's Advocate	2	0	0	1	10	0
Deputy Queen's Advocate	2	0	0	1	10	0
Registrar of the Supreme Court	1	15	0	1	1	0
Deputy Registrar of the Supreme Court	1	15	0	1	1	0
Secretaries to the Judges of the Supreme Court	1	4	0	0	16	0
Interpreters to the Judges of the Supreme Court	0	16	0	0	13	0

The above rates are in substitution of all allowances formerly granted, including the cost of a seat in the Mail Coach to or from Kandy and Galle.

Rules for the Sale of Crown Lands.

His Excellency the Governor has directed the following Extract from Her Majesty's Instructions to be published for general information.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 23d April, 1851.

C. J. MacCarthy.
Col. Secretary.

Fortieth.—And whereas We have by Our said Commisson appointing you Our Governor and Commander in Chief as aforesaid, given to you full power and authority in Our name and on Our behalf, but subject nevertheless to such provisions as are in that respect contained in your General Instructions, to make and execute in Our Name and under the Public Seal of Our said Island, Grants of Waste Land to Us belonging within the same to private persons, and for the Public uses of Our subjects there resident. Now We do hereby require and authorize you from time to time as occasion may require, to cause all necessary Surveys to be made of the vacant or Waste Lands to Us belonging in Our said Island, and to cause the persons making such Surveys to report to you what particular Lands it may be proper to reserve for Public Roads or other internal communications by Land or Water, or as the Sites of Towns, Villages, Churches, School Houses or Parsonage Houses, or as places for the burial of the dead, or as places for the future extension of any existing Towns, or Villages, or as places fit to be set apart for the recreation or amusement of the Inhabitants of any Town or Village, or for promoting the Health of such Inhabitants, or as the Sites of Quays or Landing Places or Towing Paths, which it may at any future time be expedient to erect, form, or establish on the Sea Coast or in the neighbourhood of Navigable Streams, or as places which it may be desirable to reserve for any other purpose of Public convenience, utility, health or enjoyment, and You are specially to require persons making such Surveys to specify in their Reports, and to distinguish in the Charts or Maps to be thereunto annexed, such Tracts, Pieces or Parcels of Land within Our said Island as may appear to them best adapted to answer and promote the several purposes before mentioned. And it is Our Will, and We do strictly enjoin and require you that you do not under any pretence whatsoever grant, convey, or demise to any person or persons any of the Lands which may be specified as fit to be reserved as aforesaid, nor permit or suffer any such Lands to be occupied by any private persons for any private purpose.

Forty-first.—And We do further charge and require you not to make any Grant of Land to, or in trust for, or for the use of any private person unless in consideration of payment in money for the same after such Land shall have been previously put up for sale by Public Auction at such an upset price per acre as shall from time to time by Our authority be fixed for the same, and for this purpose you shall cause such Lands as from time to time shall remain unoccupied and ungranted to be put up for sale by Public Auction from time to time as you shall judge proper, and the highest bidding which shall at such Public Auction be made for any such Lands shall be accepted, provided that such bidding shall at least amount to such upset price per acre as aforesaid. Provided nevertheless, that no such bidding shall be finally accepted until the person or persons making the same shall have actually paid a Deposit of Ten per cent on the amount thereof, and shall have signed a Contract for the payment of the balance within one calendar month next thereafter. Provided nevertheless, and We do hereby declare, ordain, and appoint, that it shall be competent to you, on Our behalf and authority, in the execution of any direction which you may receive from Us through one of Our Principal Secretaries of State, to grant Land or Lands either in exchange for other Lands or in satisfaction of any equitable claim to Land. And it is Our Pleasure that all Grants of Land to be made by you in Our name to any person or persons in consideration of the payment of money for the same shall be made to such person or persons, and to his, her or their Heirs and Assigns, to be by him, her or them held in fee and common soccage, yielding and paying to us, Our Heirs and Successors, a Quit Rent of one Pepper Corn by the year for the same, and every such Grant shall pass in Our name under the Public Seal of Our said Island of Ceylon, and shall be executed and delivered to the purchaser or purchasers, in such manner as has been customary, or as you shall judge fitting on the payment of the purchase money for the same, and not before; and then and not before the purchaser or purchasers shall be let in possession of the Land so bought by them; and for the delivery of every such Grant, and the

preparing the same, the said purchaser or purchasers shall pay into the Colonial Treasury a fee amounting to forty shillings sterling money and no more, or of such smaller amount as you from time to time with the advice of the Executive Council of Our said Island, shall appoint, and every such Grant shall previously to its being so delivered be enrolled in the Court of the District where such Land may be situate, and for making every such Enrolment the Registrar of such Court shall be entitled to receive from such Grantee or Grantees a fee of five shillings Sterling money and no more.

MINUTE

BY THE GOVERNOR.

His Excellency the Governor is pleased to direct, that the Minute of the 15th of December 1857, and the following Minutes

Of the 22nd of November, 1845.
Of the 2nd of July, 1847.
Of the 16th of March, 1848.
Of the 18th of April, 1850.
Of the 2nd of December, 1853.
Of the 22nd of August, 1855.

respecting the Scale of Fees chargeable by the Surveyor General's Department against purchasers of Crown Land, be cancelled, and that in lieu thereof the following Rules be observed:—

1.—All Crown Land will be sold by Auction, and no Waste Land will be exposed for Sale at a price below Twenty shillings per acre.

2.—The Surveyor General, in conjunction with the Government Agents, will make arrangements for bringing forward for sale, from time to time, such portions of Waste Land as may be by them deemed expedient.

3.—The preceding Rules shall not be held to preclude parties desirous of purchasing any particular tracts of Land, from applying to the Government Agent for the Sale of them accordingly. But the Surveyor General and Government Agents will exercise their own discretion in respect to complying with any such application,—and the applicant will not be at liberty to enter upon the Land for any purpose, without permission of the Government Agent. It will also be distinctly understood, that the making such application will give the applicant no claim whatever to the Land, if put up for Sale, in preference to any other person.

4.—The following (reduced) Fees will be recovered by Government, in aid of the expenses incurred by the Surveyor General's Department, in the preparation of Land for sale, and completion of Title plans.

600	„	700	...	...	85	0	0

Fractions of an acre to be charged as a whole acre, and quantities between the tabulated numbers an interpolated amount.

For the opening or defining of boundaries not opened, or incorrectly opened by the Proprietors of Land, their Agents or Managers, after such Proprietors or their Agents or Managers have received three weeks' notice, in writing, from the Surveyor General or Government Agent to open or define such boundaries, one Rupee per linear chain of boundary.

For appraisements, special surveys, or copies of documents, special terms will be made.

5.—Parties making application for the sale of any Land under the 3d Rule hereof, may be required by the Surveyor General or Government Agent to make a deposit, to the satisfaction of the latter officer, of the probable Survey Fees according to the scale in Rule 4.

6.—Copies of the Plans, when completed, will be lodged in the Office of the Surveyor General, where they will be marked off in a general Topographical index, which, with a Register, will be kept for public inspection, and Registers will also be kept for the same purpose at the Offices of the Government Agents, of the lands sold in their respective Provinces.

7.—The Sales will be held, when practicable, at the Government Agent's Office, twice a month, after Six weeks' public notice by Proclamation in the Government Gazette, and care will be taken to prevent the days of Sale in the several Provinces from interfering with each other.

8.—On the day of Sale the Government Agent will specify the preparation Fees recoverable through him by the Surveyor General's Department under this Minute, and will stipulate that they must be paid in full by the purchaser on the day of Sale, together with 10 per cent. on the amount actually bid for the Land.

9.—The balance of the purchase money must be paid within one month from the day of Sale, and in default of such payment the sale will be considered void, the 10 per cent. will be forfeited, and the Government will be at liberty to re-sell the Land.

10.—The following Fees for the preparation of Title Deeds must be paid into the Colonial Treasury.

On all grants of Land sold for a sum not exceeding £5.—one shilling.

For more than £5.—four per cent.

But in no case is such fee to exceed 40*s.* for any one grant: and the Secretary of the District Court of the District in which the Land granted shall be situate, shall be entitled to a fee of five shillings for enrolling the grant.

11.—On the receipt of the purchase money in full, and of the Fees enumerated in this Minute, the Government Agent will apply to the Colonial Secretary for a grant in Duplicate. One Copy shall be delivered to the purchaser, who shall forthwith be put in possession of the Land, and the other be enrolled in the District Court.

12.—The Crown reserves to itself the right of making and constructing such Roads, Bridges, Canals or Water-courses, as may be necessary for public purposes in all Lands purchased as above, and also to such indigenous timber, stone, clay, and other materials, the produce of the Land, as may be required for making and keeping the said Roads, Bridges, Canals or Water-courses, in repair, and for any other public works. The Crown further reserves to itself all mines of precious metals.

13.—This Minute to take effect from this date.

By His Excellency's Command.

Colonial Secretary's Office,
Colombo, August 1st, 1861.

W. C. GIBSON,
Col. Secy.

MINUTE
BY THE GOVERNOR.

HIS EXCELLENCY THE GOVERNOR is pleased to direct that the following rules for the payment and adjustment of Costs attending the Survey of Lands intended to be brought to sale, be substituted for those laid down in the Minute of the 7th October 1844.

The Treasurer will, on his application, furnish the Principal Officer in charge of the Survey Department, with the necessary funds to meet the expenses of Survey; and he will debit these sums as advances, for the settlement of which the Principal Officer in charge of the Survey Department will be responsible.

The recovery of these sums from the purchasers of Land will be made by the Government Agents and remitted to the Principal Officer in charge of the Survey Department, and by him forwarded to the Treasurer in liquidation of the advances outstanding.

If any Land is not sold within one year from the date of its being advertised for sale, the expense of Survey on account of such Land is to be brought to account as a charge by the Principal Officer in charge of the Survey Department —in order to which it will be necessary in all cases, that proper Vouchers should be obtained for every payment as incurred.

Should any such Land be afterwards sold, the costs of Survey recovered are to be paid by the Principal Officer in charge of the Survey Department to the Treasurer, to be accounted for as an Incidental Receipt.

The Principal Officer in charge of the Survey Department will transmit to this Office quarterly a Return of all unsold Lands, the expenses of surveying which shall have been charged as an expenditure—making a note of such as may have been subsequently sold.

He will also furnish the Auditor General with a quarterly Account of all payments made by him out of the Advances received from the Treasurer, and of the recoveries on account—accompanied by a separate Account of the payments finally brought to account, and of the recoveries since made.

These rules are not, however, to apply to the advances already made to Government Agents by the Treasurer, which they will settle in terms of the Minute of the 7th October 1844—returning to him any balance that may be now in their hands.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 24th November 1845.

P. E. Wodehouse,
Actg. Col. Secy.

MINUTE

BY THE GOVERNOR.

It being the desire of Her Majesty's Government, that advantage should be taken of the additions made, and about to be made, to the Department of the Surveyor General, under the Surplus Fund Ordinance,—in the first place, to bring to a settlement those native land claims, upon which a deposit was paid in 1848; and secondly, to facilitate the acquisition of Crown Land in small holdings, whenever a sufficient number of persons, Native or European, shall have made known, through the Government Agent, their readiness to become the purchasers of land in a particular District, and shall have made such Deposit as may be required, to prove the bonâ fide character of the application.

It is hereby made known,

1st. That the Surveyor General is authorised, and empowered, to cause lands thus applied for, to be surveyed, and put up to sale by Public Auction; and that he will be prepared, as the new organization of his Department advances, to commence this duty, in various parts of the Island, when the applications are sufficiently numerous.

2ndly. That the Survey will be, to all intents and purposes, an accurate, and registered Survey, the position of the Lots put up to Sale being defined by artificial Landmarks, as well as by the usual boundaries,—both, to be maintained at the cost, and upon the responsibility, of the purchaser, so that there will be no difficulty in incorporating the properties thus acquired with the Trigonometrical Survey of the Island, as it proceeds.

3rdly. That the Survey Plans delivered by the Surveyor General, will be detailed plans, and the Grants to be issued in conformity therewith, will give a legal Title to the land, whether the Trigonometrical Survey of the District be, or be not, completed, so that the land granted may be sold, mortgaged or otherwise alienated as at present.

4thly. The Surveyor General will publish certain Rules, with respect to the making, and upkeep, of Boundaries, with which every purchaser will be expected to comply.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 14th January, 1857.

C. J. MacCarthy,
Col. Secy.

NOTICE.

HIS EXCELLENCY THE GOVERNOR having received from His Grace the SECRETARY OF STATE the following amended Regulations relative to the privileges in the acquisition of Lands allowed to Military and Naval Officers purposing to settle in certain of the British Colonies, has directed the same to be published for general information.

By His Excellency's Command,

Colonial Secretary's Office,
Colombo, 25th August, 1853.

C. J. MACCARTHY,
Col. Secy.

Information for the use of Military and Naval Officers proposing to settle in certain of the British Colonies.

1. Privileges in the acquisition of Land are at present allowed to Military and Naval Officers in the Colonies of New South Wales, Victoria, Van Diemen's Land, South Australia, Western Australia, New Zealand, Ceylon, and the Cape of Good Hope. As, however, the controul of the Waste Lands of the Crown in New Zealand is vested in the Legislature of that Colony, it must be distinctly understood that Her Majesty's Government cannot guarantee the continuance of the following Regulations, but that they will be liable to be altered or discontinued by the local Legislature; and the same caution will be applicable to any other of the Colonies named, in which the same controul may hereafter be transferred to the local Legislature.

The same privileges are extended to Officers of the East India Company's Service in Van Diemen's Land.

2. In the abovenamed Colonies, land is disposed of by sale only; but Officers purchasing land, are allowed a remission of the purchase money, according to the undermentioned scale.

Field Officers, of 25 years' service and upwards, in the whole	£600
Field Officers, of 20 years' service and upwards, in the whole	500
Field Officers, of 15 or less years' service, in the whole	400
Captains, of 20 years' service and upwards, in the whole	400
Captains, of 15 years' service or less, in the whole	300
Subalterns, of 20 years' service and upwards in the whole	300
Subalterns, of 7 years' service and upwards, in the whole	200

Subalterns, under 7 years' standing, are not entitled to any remission in the purchase of Land.

Regimental Staff Officers, and Medical Officers of the Army and Navy, are allowed the benefit of this Rule.—But Military Chaplains, Commissariat Officers, and Officers of any of the Civil Departments of the Army; Pursers, Chaplains, Midshipmen, Warrant Officers of every description, and Officers of any of the Civil Departments of the Navy, are not allowed any privileges in respect of land. Although members of these classes may have been admitted formerly, and under different circumstances, they are now excluded. Mates in the Royal Navy rank with Ensigns in the Army and Mates of three years' standing, with Lieutenants in the Army, and are entitled respectively to corresponding privileges in the acquisition of lands.

3. In order to take advantage of this privilege, Officers of the Army and Navy on full or half pay, should provide themselves with a Certificate from the Office of the General Commanding-in-Chief, or of the Lords Commissioners of the Admiralty, or of the Master General of the Ordnance, shewing that their settlement in a British Colony has been sanctioned, and stating their rank and length of service. No document from the Office of the Secretary of State is necessary.

4. This Certificate will not on any account be issued more than once to the same Officer, or to any Officer on half pay who shall for two years immediately preceding the date of this Notice have resided in the Colony in which he seeks to make it available.

5. Gentlemen who have ceased to belong to Her Majesty's Service will not be allowed advantages in the acquisition of Land. This rule, however, is not to affect Officers who, having obtained permission to settle in a British Colony, have quitted the service for the purpose of doing so. But, in such cases, it will be necessary that their Certificate of service and permission should bear the date of their retirement from the service, and that, within one year from that date, but not otherwise, it should be presented to the Governor of one of the abovenamed Colonies, which will be sufficient warrant for allowing the bearer the advantages to which his rank and length of service may entitle him according to the above scale.

6. The object of the Regulations being to encourage the permanent settlement in the abovenamed Colonies of Military and Naval Officers, and it being necessary to prevent those who have no intention of settling there from taking advantage of the privilege, Officers will not, for the space of two years from the making out of their Certificates, receive a Crown Grant for any Land purchased by such Certificates, but will, in the mean time, receive a "Location Ticket." At the expiration of two years, the Officer, on shewing to the satisfaction of the Governor that he is *bonâ fide* a resident Settler in the Colony, and has so resided continuously since receiving his "Location Ticket," will be entitled to a Crown Grant in exchange for it. If, however, application should not be made for the exchange of the "Location Ticket" within 12 months from the expiration of the two years for which it is granted, it will be considered to have lapsed, and the Land will be opened to sale or grant. In case of the Officers dying while holding a "Location Ticket," the Land to which it refers will be transferred to his legal representative.

In case of such death occurring before the "Location Ticket" is obtained, the Governor of the Colony is authorized to make the Certificate available in favour of the Child or other nearest representative of the deceased Officer, as he may find advisable.

7. For the convenience of Officers, the following heads are subjoined of the Rules for the sale of Land in the Australian Settlements:—

All Lands are disposed of by sale alone, and must have been once at least exposed to public auction.

The lowest upset price is not less than £1 per acre; but the Government has power to raise the same by Proclamation, though not again to reduce it.

The Lands are distinguished into three different classes; viz., Town Lots, Suburban Lots, and Country Lots.

Upon Town and Suburban Lots, as well as upon a proportion not exceeding one-tenth of the whole of the Country Lots offered for sale at any auction, the Governor has the power of naming a higher than the general or lowest upset price: these last to be designated "Special Country Lots."

Town and Suburban Lots are in no case disposed of except by public auction; but Country Lots, which have already been put up to public auction, and not sold, may be disposed of afterwards by private contract at the upset price.

No Lands are sold by private contract, except for ready money. When sold by public auction, one-tenth at least of the whole purchase-money must be put down, and the remainder within one calendar month, or the deposit is forfeited.

Lands are put up for sale in Lots not exceeding one square mile in extent.

8. In Ceylon, Land is sold by auction at an upset price, which is to be fixed by the Governor, but which is not to be less than £1 per acre. Before the Lands are exposed for sale, they will be surveyed by the Government, and duly advertised.

9. At the Cape of Good Hope the upset price is 2*s.* per acre in the old Colony, and 4*s.* per acre in the District of Natal.

10. The several prices above-mentioned are of course subject to a revision at any time by the proper authorities, and the pecuniary amount of the Remission made to Officers cannot be increased on account of an increased value set upon the Lands.

July, 1853.

Ceylon Postal Regulations.

Night Mail Coaches will run between Colombo, Kandy and Galle, and *vice versâ*, at 6 P. M., every day.

The usual morning Coaches will leave their respective Stations of Colombo, Kandy, and Galle, at 6 o'clock A. M., every day, with the exception of Sundays.

HOUR OF POSTING LETTERS FOR THE NIGHT COACHES.

The regular hour of posting Letters, Parcels, &c., at the Offices of Colombo, Kandy, and Galle, to be forwarded by Night Coaches, will be 5 o'clock, P. M.

NEWSPAPERS.

Newspapers will be received for dispatch by Night Coaches until half past 4 o'clock, P. M.

REGISTRATION OF LETTERS, ETC.

Letters, Books, and Parcels will be received for Registration from 10 o'clock, A. M., until 4½ o'clock, P. M., with the exception of Sundays ; but no Letters, &c., will be registered after 4½ o'clock, P. M.

The Registration fee of 6*d.*, together with the ordinary postage, must be prepaid by Stamps.

TOO LATE LETTERS, ETC.

Letters and Newspapers posted in the Letter boxes, the former after 5 o'clock, and the latter after 4½ o'clock, P. M., will be dispatched by the Morning Coaches.

WRITING ACROSS STAMPS AFFIXED ON LETTERS.

The date of sending may be written across Stamps affixed to Letters, either with or without the initials of the sender, for the purpose of rendering them useless to any person who may be tempted to steal them.

Receipt or Draft Stamps will not be deemed as Postage Stamps.

DELIVERY OF LETTERS.

Letters, Papers, &c., arriving by Morning and Evening Mails, will be ready for delivery an hour after the arrival of the Coaches in Colombo.

On Sundays there will be only one Morning delivery.

Notice.

As arrangements are being made to dispatch the bulk of the Mails to all the Stations in the Central, Eastern, Northern, and Southern Provinces, by Night Coaches, as far as Kandy and Galle, and from thence to their destinations half an hour after the Coach arrives, great delay will be avoided by posting all correspondence to those places in time to be transmitted by the Night Coaches.

Private Letter Boxes.

The Postmaster General will take charge of all Private Letter Boxes with locks and keys that may be sent to him, on the payment of £1 1*s.* per annum : this will ensure a safer and quicker delivery to the owners sending for their letter boxes.

Prepayment of Postage.

Prepayment of Postage on all Letters, Newspapers, Book packets, Parcels, and Registered Letters, addressed to England, and on Letters to the Northern countries of Europe, *viâ* Trieste, is compulsory. The British Packet Postage on Letters sent to any Foreign country or possession should likewise be prepaid. The British Packet Postage on Letters addressed to France direct will be collected in France ; the Colonial Postage only should be prepaid.

GENERAL REGULATIONS.

LETTERS.

Letters forwarded unpaid will be charged double Postage. Should the person to whom the letter is addressed, refuse to receive it, the Postage will be charged on the sender.

Letters having affixed to them a Postage Stamp, or Stamps, the value of which shall be less than the rate of Postage to which they would be liable, will be charged double the amount of the difference between the value of the Stamps affixed, and the Postage due upon them.

It is not compulsory, except in the cases specified above, to prepay by Stamp, but it much facilitates the business of the Post Offices, if Stamps of the proper value are affixed to letters.

Stamps should always be affixed on the face of a letter or packet, and at the upper right hand corner.

Re-directed letters are charged with the single rate of Postage, from the place at which they are re-directed, independent of all other Postage that may already have been paid upon them.

Letters which persons refuse to receive are returned to the Office from whence they were dispatched, where they are opened, and returned to the senders who shall be charged with the Postage due upon such as have been sent unpaid.

Letters addressed to persons who cannot be found will be returned to the person sending the same, if known, but if not, they will be returned to the Office from whence they were first dispatched, and after the expiration of three months, they will be examined, and dealt with according to circumstances.

NEWSPAPERS.

Newspapers, Prices Current, or Commercial Lists, need not be sent through the Post Office.

In forwarding a Newspaper, Price Current, or Commercial List, through the Post, the following Rules must be observed:—

1st. It shall be sent without a cover, or in a cover open at the sides.

2nd. There shall be no word or communication printed on the paper after its publication, or upon the cover thereof, nor any writing or marks upon it, or upon the cover of it, except the name and address of the person to whom it is sent, and the name and address of the sender.

3rd. There shall be no paper or thing enclosed in or with any such paper.

If the above Rules are not observed, such Paper, Price Current, or Commercial List will be charged as an unpaid letter.

The Postmaster General or any one authorised by him, may examine any Newspaper, Price Current, or Commercial list, for the purpose of ascertaining whether any other paper or writing whatsoever be enclosed or concealed in it.

A re-directed Newspaper, Price Current, or Commercial List will be forwarded without any additional postage being paid upon it, provided it has not been opened. If a Newspaper has been opened, it shall be charged with the same rate as it would be liable to were it then posted for the first time.

Newspapers received from abroad are delivered free of charge.

BOOKS.

In forwarding Books through the Post, the following Rules must be observed:

1st. The postage shall be prepaid in full, by means of Postage Stamps affixed outside the packet or its cover.

2nd. Every packet shall be sent either without a cover, or in a cover open at the ends.

3rd. A Book-packet, whatever may be the postage paid thereon, shall not contain any letter, closed or open, or any enclosure, sealed, or otherwise closed against inspection; nor shall there be any letter, nor any communication of the nature of a letter, written or printed, in any such packet or on its cover. Entries, however, merely stating who sends the book or other publication, or to whom it is given, shall not be regarded as a letter.

4th. No Book-packet will be received, if it exceeds Three pounds in weight.

5th. Any Book-packet which is not open at the ends, or has any letter, or any communication of the nature of a letter, written or printed in it, or upon its cover, shall be charged with the "unpaid" or double letter postage.

6th. If a Book-packet be not sufficiently prepaid with Stamps, but nevertheless bear a Stamp of the value of One penny or more, it shall be forwarded, charged with a book postage of double the amount of the difference between the value of the Stamps affixed thereto, and the postage to which the same would be liable if duly and properly stamped when posted.

PARCELS.

No parcel shall exceed Three pounds in weight; and every parcel shall be made up in a form which can be conveniently carried by a Post Office runner.

A parcel shall not contain any letter; and any parcel which shall be found to contain any letter, or any communication of the nature of a letter, shall be charged as an unpaid letter, according to its weight.

Parcels will only be forwarded on days when the weight of the ordinary Mails will permit of it.

Any person opening a Letter, Paper, Book-packet, or Parcel, is bound to pay the postage thereof; should it however appear, that a letter has been sent to annoy the person addressed, the Postmaster General may remit the postage of the same.

No dangerous substance is to be sent through the Post Office, under a penalty of Twenty pounds.

Money, Jewels, Ornaments, or other valuable articles, sent by Post, are forwarded at the entire risk of the senders, whether the letter or packet containing the same be registered or not, such letter or packet being charged with letter postage. Registration, however, affords greater security, and should be availed of in all cases where articles of value are transmitted through the Post.

Letters, Books, Packets, or Parcels, once posted at any Post Office, cannot be recalled on any pretence whatever.

Official Letters are to contain no private note, or private communication of any sort or kind, under a penalty of Five pounds. Any official letter suspected to contain any private communication, must be opened in the presence of the Postmaster General.

Letters from private individuals to Officers of Government, concerning matters in which they are personally concerned, are not deemed official, and must be paid for.

All Complaints requiring redress, such as surcharge of postage, mis-sending, or delay in the delivery of letters, &c, must be made to the Postmaster General, accompanied by the envelopes of the Letters referred to; the number of the delivery Peon should always be stated.

Securing Letters with Sealing Wax.—The Public are urgently recommended to close all letters, containing Remittances, Cheques, Bank Notes, or valuable documents, with *Sealing Wax*. Bank Notes ought always to be divided, one half being sent after the receipt of the other half has been acknowledged.

Letters closed with Gum, or the ordinary wafer, can be opened without any difficulty, or the slightest chance of detection.

Notice.—As much delay arises in the transmission of correspondence, from the absence of full information as to the Post Station nearest to which the party resides, it is requested that, in addition to the name of the residence, Estate, or village, the name of the Post town may also be given. When it is desired that Letters or Mail packets, passing through the Post, be delivered to an Agent or other party, it is requested that instructions may be given to that effect, upon the face of the letter, (that part which bears the address.)

Electric Telegraph Rules.

AMENDED RULES for the transmission of Messages by the Electric Telegraph, framed by the Governor and Executive Council, under the 6th Clause of the Ordinance No. 2 of 1857.

1. Messages will be received for transmission by Electric Telegraph at the undermentioned rates of charge, and subject to the following Rules.

Messages of 16 words and under, including the name of the sender, the name of the person addressed, the date (if inserted) and the names of the places of despatch and destination (unless they be also the names of Telegraph Stations,) will be sent a single distance along the line for two shillings.

Messages, as above, exceeding 16 words, will be charged for at the rate of three half pence per word for every distance. A single distance is to be considered 400 miles, or any distance less than that; and for every additional single distance above 400 miles, there will be made an additional charge equal to the charge made on the same message for a single distance. Ceylon is to be considered one distance, without reference to its length of line, or the Station to or from which the Message may be sent.

No charge is made for stops, or for prepositions, or such words as "Messrs." "and Co.," "Mr.," "Mrs.," "Colonel," "&c.," occurring in the address of a Message.

The name of the sender, of the person addressed, and of the place of address, must be written on the face of every Message. And the Message must be authenticated by the signature of the sender. The date may be written, or not, at the option of the sender. Peon hire at the rate of Three-pence per mile will be charged for extra, if the Message be sent to any place at a distance beyond half a mile from a Telegraph Station.

2. No Message, however brief, will be charged for at less than a single rate, and the reply will in every case be charged for separately.

3. The sender of a Message may prepay the charge for a reply, which must be limited to the number of words so prepaid for.

4. All Messages must be in the English Language, and must be pre-paid in Cash,—Peon hire, when it is chargeable, will be recovered by the Office which receives the Message

5. No unpaid Message shall on any account be transmitted, except in the cases provided for by Rule 21. A violation of this Rule will subject the Assistant in charge to dismissal from the Department.

6. Should a Message in cypher be tendered for transmission simultaneously with a Message in ordinary language, the latter will take precedence of the former.

7. The sums paid by public functionaries for the dispatch of Messages will be recovered by the sender, by Vouchers countersigned by the Colonial and Military Secretaries in Colombo, and at other Stations, by the Chief Civil and Military Authorities, each for his own Department.

8. Repetition price will be charged for every Service Message containing numbers, or referring to Financial matters.

9. Violation of secrecy on the part of any Officer, Assistant, Clerk, or Signaller in the Telegraph Department will be punished, in addition to the penalties provided for by the 11th Clause of the Ordinance No. 2 of 1857, by dismissal from office, forfeiture of arrears of pay, and a declaration to be published in the Government Gazette, of the incapability of the offender ever after to hold any Public Office; and it must be distinctly understood, that it will be considered a breach of confidence, subjecting the party offending to the punishment hereinbefore mentioned, to disclose the contents of any Message not intended for publication.

10. Officers in charge of Telegraph Stations may refuse to transmit a Message which may be of a decidedly objectionable character. Should the character of the Message be disputed, the matter may be referred to the Colonial Secretary, if the dispute occurs at the seat of Government; or to the chief Civil or Military Officer, if it occur at any other station.

11. Messages shall be transmitted in the order of their receipt in the Telegraph Office. Should two or more Messages be tendered for transmission at the same time, the shortest shall have the precedence, without reference to its relative importance, except as regards Messages from Government Officials, in cases of pressing Public emergency and importance, when priority of dispatch may be claimed by the sender. The Deputy Superintendent will bring to the notice of Government, any case of a Public Officer insisting on priority of dispatch without reason.

12. Messages may be repeated back from Stations at the request of the sender, on payment of half-price extra. Refunds, for errors, will only be made when repetition has been paid for.

13. No Message or Messages, beyond 200 words in all, can be sent at one time by one individual or firm; and no second Message can be sent by the individual or firm, till after the lapse of three hours, unless the line be free, and not required by any one else.

14. Messages are received for despatch at all hours, day and night, with exception of Sundays, Christmas day, New Year's day, and Good Friday, when the Offices will be closed between the hours of 8 A. M. and 4 P. M.

Messages tendered for transmission on ordinary days, between 6 P. M. and 6 A. M. of the following day, and between 6 A. M. and 8 A. M., and 4 P. M. and 6 P. M., on the abovenamed holidays, will be charged double the ordinary rate.

15. To secure secrecy as much as possible all persons not actually on duty in the Signal Room, whether belonging to the Telegraph Department or not, and without reference to Official rank in any case, are strictly prohibited from entering the Signal Room. The only exception to this rule is for senders of messages, who may be allowed to see their messages despatched, if they attend the Office at the time of their turn for transmission.

16. News and Messages shall be conveyed in the following order:—

1st. Intelligence of the English and China Mails.
2nd. Messages for the Press.
3rd. Messages for Depositors for Messages by Mail Steamers.
4th. Messages for Non-Subscribers.

17. Overland intelligence, or other Public news of great importance, will be given to the Press free of charge. At Stations where Newspapers are not published, copies of all public News-Messages will be sent to the chief Civil and Military Authorities, and posted at the entrance to the Telegraph Office.

18. All ordinary Shipping Intelligence will be transmitted in writing, at stated intervals, to the Master Attendant, and to the Post Office. Important Shipping Intelligence will be transmitted, immediately on receipt, to the same authorities.

19. Special notice of the arrival of any specified vessel will be sent immediately to the residence or office of any person resident at a Telegraph Station, who may require it, at a charge of Sixpence, in the case of a Subscriber, and of Two shillings in the case of any other person.

20. In case of any irregularity, delay or interruption in the transmission of Messages, or the delivery of Notices or Reports, on public or private service, complaints should be made to the Deputy Superintendent or other Officer in charge of the Telegraph Department.

21. Messages will, under these Rules, be received by Post from Europe or elsewhere for transmission, if money be deposited beforehand sufficient to pay for the transmission.

22. Messages will also be sent to the Post Office in letters, bearing Postage, when instructions to that effect are sent with the Message.

23. The accuracy of Messages is not guaranteed.

24. The foregoing Rules are provisional, and together with the rates of charge, are subject to revision and alteration from time to time.

By His Excellency's Command,
W. C. GIBSON,
Acting Col. Secy.

Colombo, 9th August, 1860.

NOTICE.

Messages addressed to large Cities such as Calcutta, Bombay, and Madras, should always have the residence of the addressees specified by Street and Number, and messages to such names as Smith, Jones, Brown, &c., should have the Christian name or profession of the addressee, to prevent mis-delivery.

Senders of messages are advised to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.

The accurate transmission of messages is rendered much more certain by their being repeated back from each repeating Station. This repetition is charged for at half pric extra, and is advised in all messages of great importance.

The errors which chiefly occur are in the numerals, such as Sixteen—Sixty, Thirteen, —Thirty, owing to the sound, and first three or four letters being similar. To obviate this, it is recommended that in all financial or money messages, the sum be given in two forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1000." When this is done, an error is of very rare occurrence.

A. CAPPEL,
Superintendent Telegraphs in India.

Electric Telegraph Department.

LIST OF DISTANCES.

The charges for *distances* are regulated by the *geographical interval* and *not by the actual length of the line* traversed.

As far as Ceylon is concerned, the measurements are made from Manaar, and an additional rate added for any place in the Island. Thus Galle to Kedgeree is 4 Rates, made up of Manaar to

Kedgeree	3 = 6*s.*
Ceylon	1 = 2*s.*
	4 = 8*s.*

From Point de Galle (or any other Station in Ceylon.)

Stamp Duties

LEVIED UNDER THE ORDINANCE No. 11 OF 1861.

PART I.

Containing the duties on instruments of conveyance, contract, obligation and security for money; on deeds in general; and on other instruments, matters and things, not falling under either of the following heads.

PART II.

Containing the duties on Law proceedings, and in the Supreme Court, District Courts and Courts of Requests, respectively.

PART III.

Containing the duties in Testamentary Proceedings, on Probates of Wills, and Letters of Administration.

Part I.

	s.	d.
AFFIDAVIT or Affirmation not made for the immediate purpose of being filed, read or used in any Court of Justice in this Island ...	2	0

Exemptions from the preceding and all other Stamp Duties.

Affidavits or Affirmations required or authorized by Law to be made in Criminal matters; affidavits or affirmations on the assumption of any office under Government, or for the verification of any public accounts or to be made pursuant to this Ordinance.

AGREEMENT or Contract or any Minute or Memorandum of an agreement made in this Island (and not otherwise charged nor expressly exempted from all Stamp Duty) whether the same shall be only evidence of a contract or obligatory upon the parties, from its being a written instrument, where the matter thereof shall be

And for every additional £25 or part thereof a further progressive duty of...	...£0	1	0
Where the value of the agreement or of such minute or memorandum does not appear on the face thereof, such instrument shall bear a stamp of	0	5	
Provided always, that where divers letters shall be offered in evidence to prove any agreement between the parties who shall have written such letters, it shall be sufficient if any one of such Letters shall be stamped with a duty of	0	5	

Exemptions from the preceding and all other Stamp Duties.

Memorandum or agreement for the hire of any labourer, artificer, manufacturer, or menial servant.

Memorandum, letters or agreement for or relating to the sale of any goods, wares, or merchandise.

Memorandum, letter or agreement made with any common carrier or other person for the carriage of goods, wares, or merchandise in this Island.

Conditions of sale of any property sold by auction.

Letters containing any agreement (not before exempted) in respect of any merchandise or evidence of such an agreement which shall pass by the post between merchants or other persons carrying on trade or commerce in this Island, and residing and actually being at the time of sending such letters at the distance of 20 miles from each other.

Memorandum or agreement made between the master and mariners of any vessel or boat for wages

Agreement made in compliance with or under the provisions of the Mercantile Shipping Acts.

Agreement to marry not containing any settlement or transfer of property.

Memorandum or agreement made by or with Her Majesty, or any Government Officer in the execution of his office.

APPRAISEMENT, or valuation of any estate or effects moveable or immoveable; or of any interest therein, or of the annual value thereof; or of any dilapidations; or of any repairs wanted; or of the materials and labor used or to be used in any buildings; or of any artificer's work whatsoever.

„ 2000 „ 3000 —	1	10	0
„ 3000 „ 4000 —	2	0	0
For every additional £1,000 or part of £1,000 of the money thereby made payable	0	10	0

Inland Bill, Draft or order for the payment of any sum of money, though not made payable to the bearer or to order, if the same shall be delivered to the payee or some person on his behalf. — *The same duty as on a Bill of Exchange for the like sum payable to bearer or order.*

Inland Bill, Draft or order for the payment of any sum of money weekly, monthly, or at any other stated periods, if made payable to the bearer or to order, or if delivered to the payee, or some person on his behalf, where the total amount thereby made payable shall be specified therein or can be ascertained therefrom. — *The same duty as on a Bill payable to bearer or order otherwise than on demand, for a sum equal to such total amount.*

And where the total amount of the money thereby made payable shall be indefinite — *The same duty as on a Bill otherwise than on demand for the sum therein expressed only.*

And the following instruments shall be deemed and taken to be Inland Bills, Drafts, or Orders for the payment of money, within the intent and meaning of this Schedule; viz:

All drafts or orders for the payment of any sum of money by a Bill or Promissory note, or for the delivery of any such bill or note in payment or satisfaction of any sum of money; where such drafts or orders shall require the payment or delivery to be made to the bearer, or to order, or shall be delivered to the payee or some person on his behalf.

All receipts given for money received which shall entitle, or be intended to entitle, the person or persons paying the money or the bearer of such receipts to receive the like sum from any third person or persons.

And all bills, drafts, or orders for the payment of any sum of money out of any particular fund, which may or may not be available, or upon any condition or contingency which may or may not be performed or happen, if the same shall be made payable to the bearer or to order, or if the same shall be delivered to the payee or some person on his behalf.

And all documents or writings usually termed Letters of Credit, or whereby any person to whom any such document or writing is or is intended to be delivered or sent, shall be entitled or be intended to be entitled to have credit with, or in account with, or to draw upon any other person for or to receive from such other person any sum of money therein mentioned.

Exemptions from the Duties on Drafts or Orders.

All drafts or orders drawn by the Treasurer of the Colony or any other Government Officer in the execution of his office.

All Letters of Credit, whether in sets or not, sent by persons in this Colony, to persons out of the same, authorising drafts on the British Territories in India, or in Ceylon, or any other of Her Majesty's Colonies or Foreign Possessions.

And the following instruments are to be deemed and taken to be Promissory Notes, within the intent and meaning of this Schedule:—

All Notes promising the payment of any sum or sums of money *out of any particular fund*, which may or may not be available, or upon any *condition or contingency* which may or may not be performed or happen, if the same shall be *made payable to the bearer or to order*, and if the same shall be *definite and certain, and not amount* in the whole *to* £20.

Exemptions from the Duties on Promissory Notes.

All Notes promising the payment of any sum or sums of money out of any particular fund, which may or may not be available, or upon any condition or contingency which may or may not be performed or happen, where the same shall not be made payable to the bearer or to order, and also where the same shall be made payable to the bearer or to order, if the same shall amount to £20 or be indefinite.

And all other instruments bearing in any degree the form or style of Promissory Notes, but which in law shall be deemed special agreements, except those hereby expressly directed to be deemed promissory notes.

But such of the notes and instruments here exempted from the duty on Promissory Notes shall nevertheless be liable to the duty which may attach thereon as agreements or otherwise.

FOREIGN BILLS OF EXCHANGE drawn in but payable out of this Colony.

If drawn singly, or otherwise than in a set of three or more, the same duty as on an Inland Bill of the same amount and tenour.

If drawn in sets of three or more, for every Bill of each set,

WARRANT to act as a Notary Public		£5	0 0

Exemptions.

Where any person duly admitted a Notary in any district of this Island shall be afterwards admitted a Notary in any other district, the subsequent Warrant shall be free of duty.

Exemptions from the preceding and all other Stamp Duties.

All instruments exempted from the payment of Stamp Duties by virtue of the Ordinance No. 7 of 1833, No. 7 of 1853, and No. 12 of 1859.

All instruments to or on behalf of Her Majesty, or any Government officer in his official capacity.

All Wills, Testaments, and Codicils, whether Notarial or otherwise.

All instruments for the sale, transfer, or other disposition, either absolutely, or by way of mortgage, or otherwise of any Ship or Vessel, or any part, share or property of or in any Ship or Vessel.

Provided that where any Grant of land shall be made by Her Majesty or Her successors, and where any instrument hereinbefore specified (not being a Draft, Order or Promissory Note for the payment of money, or a Receipt or discharge for or upon the payment of money), shall be executed or acknowledged before a Notary Public, or shall be executed before some public officer, under the authority of the Ordinance No, 17 of 1852, entitled "*To make further provision touching the execution of certain deeds and instruments*," or by any Fiscal or Deputy Fiscal in the execution of his office, the Stamp Duty hereby chageable on such instrument shall be chargeable on the duplicate or counterpart thereof, instead of on the original instrument, and in such case, if the duty exceed the sum of five shillings, the original instrument shall bear a stamp of 0 2 0

Part II.

Containing the Duties on Law Proceedings.

IN THE SUPREME COURT.—*In Civil Proceedings.*

Every Affidavit or Affirmation.—Bill of Costs.—Bond of Security in Appeal to the Queen in Council or other Bond or Recognizance.—Certificate in Appeal to the Queen in Council.—Copy (office copy) of any decree, deposition, document, or other matter of record.—Decree or Judgment, or order having the effect of a Decree or Judgment, interlocutory or final.—Exemplification under the Seal of Court of any record or proceedings therein. —Exhibit of each unstamped document.—Injunction.—Mandate, or Writ of Mandamus Procedendo and Prohibition.—Order of transference. —Petition to the Queen in Council.—Proxy.—Rule Nisi or absolute.—Summons.—Translation of any exhibit.

6 — 1000	...	...	12	0
7 — 5000	...	...	15	0
8 — 5000 and upwards	...	...	20	0

Exemptions.

All Affidavits or Affirmations for verifying service of Process.

All Mandates in the nature of Writs of Habeas Corpus, and all Rules relating thereto.

Provided also, that no Queen's Advocate or Deputy Qeeen's Advocate suing or being sued or intervening in any suit, *virtute officii*; and no person duly admitted to sue or intervene or defend, as a Pauper, shall be required to use any Stamps, in Civil Proceedings in the Supreme Court.—But if Judgment for Costs shall be given in favour of such Advocate or Pauper, the value of such Stamps as would have been used by him if he had not been allowed to proceed without using Stamps, or the value of such part thereof as shall be mentioned in the said Judgment, shall be paid by the party against whom such Judgment shall have been given, to the Commissioner of Stamps or to the Secretary or Clerk of the Court in which the case shall have been instituted for and on behalf of such Commissioner, and in failure thereof the said Secretary or Clerk shall insert the said value in the Writ of Execution issued by the party in whose favor such Judgment shall have been given and shall pay the said value when recovered to the said Commissioner from the first amount levied under the said Writ; or if no such Writ be issued, the said Secretary or Clerk shall issue a Writ of Execution, free of Stamp Duty for the recovery of the said value to be appropriated in like manner. Provided that if the said value be inserted by the Secretary or Clerk as aforesaid in the Writ issued by the party in whose favor Judgment has been given, the first proceeds of such Writ shall be applied to the payment of the fees due to the said Advocate and to the Advocate or Proctor, if any, who has conducted the case of such Pauper; and after such appropriation, the proceeds shall next be applied to the payment of the said value of Stamps.

All Matrimonial Proceedings shall be charged as in the 4th Class.

Testamentary proceedings shall be charged in the class corresponding with the value of the estate, which must be set out by affidavit when the application for Probate or Letters of Administration is made.

IN THE DISTRICT COURTS.—*In Civil Proceedings.*

Every Affidavit or Affirmation.—Bill of Costs.—Certificate in Appeal.—Commission to Survey.—Of reference and all other Commissions.—Commitment in Mesne Process or Execution.—Copy (Office Copy) of the Decree or Judgment.—Libel.—Answer.—Replication, or other Pleading.—List of Witnesses.—Notice of Trial or Argument.—To hear Judgment of the District Court or the Supreme Court.—Petition of Appeal. —Proxy.—Rule Nisi or Absolute.—Summons to Defendant or Defendants without reference to number.—Summons to Intervenient or Interve-

6	—	5000	4	0
7	—	5000 and upwards ...	7	6

No oral pleading shall be received, except the party wishing to plead orally shall furnish a blank sheet of paper on which to write the pleading and which paper shall bear a Stamp of the same value as if it were a written pleading in a case of the like class. And any party failing to furnish such paper shall be taken to be in default.

Poundage at the rate of one per centum on all monies levied in execution either by sale or by payment of the debtor to the Fiscal or his Deputy although the creditor becomes purchaser of the property sold in Execution and obtains credit for the purchase money in reduction of the writ. The order for credit or for payment should be written on a stamp or stamps answering in value to such one per centum.

No party shall be allowed to take any proceedings on or by virtue of any Decree or Judgment without first taking a Copy thereof.

Provided also that no Queen's Advocate or Deputy Queen's Advocate suing or being sued or intervening in any suit *virtute officii;* And no person duly admitted to sue, defend or intervene as a pauper shall be required to use any stamps in Civil proceedings in the District Court. But if Judgment for costs shall be given in favor of such Advocate or pauper, the value of such Stamps as would have been used by him if he had not been allowed to proceed without using Stamps, or the value of such part thereof as shall be decreed by the said Judgment shall be paid by the party against whom such Judgment shall have been given, to the Commissioner of Stamps or to the Secretary for and on behalf of such Commissioner, and in failure of payment the said Secretary shall insert the said value in the Writ of Execution issued by the party in whose favor such Judgment shall have been given and shall pay the said value when recovered to the said Commissioner from the first amount levied under the said writ; or if no such writ be issued, the said Secretary shall issue a Writ of Execution free of Stamp Duty for the recovery of the said value to be appropriated in like manner—Provided that if the said value be inserted by the said Secretary as aforesaid in the writ issued by the party in whose favor Judgment has been given, the first proceeds of such writ shall be applied to the payment of the fees due to the said Advocate and to the Advocate or Proctor, if any, who has conducted the case of such pauper; and after such appropriation the proceeds shall next be applied to the payment of the said value of Stamps.

And no Summons, Subpœna, Warrant of Arrest, or in Execution, nor any other Citation or Writ whatsoever which has once been issued out of the Court and returned by the Officer to whom it was directed, shall on any pretext whatever, be re-issued, unless any such process has been returned not served or executed by reason that the party could not be found, or had left the Jurisdiction of the Court, or by reason that no property of the debtor or none sufficient to satisfy the exigency of any Writ of Execution could be found. Provided always, that in respect of any Subpœna or Subpœnas, the same may be re-issued, although served, in case the Judge shall, on good cause shewn, so order.

Provided also, that in appeals to the Supreme Court, the appellant shall deliver to the Secretary of the District Court, together with his petition of appeal, the proper Stamp for the decree or order of the Supreme Court, and Certificate in appeal which may be required for such appeal.

Matrimonial suits shall be charged as in the third class.

Testamentary proceedings shall be charged in the class corresponding with the value of the Estate which must be set out by Affidavit when the application for Probate or Letters of Administration is made.

Exemptions.

All Affidavits or Affirmations for verifying service of process;—all orders for the release or discharge of Civil Prisoners—All warrants of attachment for non-attendance or contempt issued by the Court at its own instance.

IN THE COURTS OF REQUESTS.

Every Affidavit or Affirmation.—Bail bond, or other bond of Recognizance.—Commission to Survey, or for any other purpose.—Commitment.—Copy of Decree or Judgment.—Notice or Rule—Proxy.—Plaint or Answer.—Petition of appeal.—Summons to defendants or Intervenients without number.—Warrant of attachment, or Execution.

Class—1	—	under	£2...	0 3
2	—	£2 and under	£5...	0 6
3	—	5 and upwards...		1 0

Poundage at the rate of one per centum on all monies levied in execution, either by sale, or by payment of the debtor to the Fiscal or his Deputy; although the creditor becomes purchaser of the property sold in execution, and obtains credit for the purchase money, in reduction of the amount of the Writ. The order for credit or for payment should be written on a Stamp or Stamps answering in value to such one per centum.

Provided also, that no Government Officer suing or being sued, or intervening in his official capacity, shall be required to use any Stamps in any Court of Requests. But if Judgment for Costs shall be given in favour of such Government Officer, the value of such Stamps as would have been used by him if he had not been allowed to proceed without using Stamps, or the value of such part thereof as shall be decreed by the said judgment, shall be paid by the party against whom such Judgment shall have been given, to the Commissioner of Stamps or to the Clerk of the Court in which the case shall have been instituted for and on behalf of such Commissioner, and in failure of such payment, the said Clerk shall insert the said value in the Writ of Execution issued by the party in whose favor such Judgment shall have been given, and shall pay the said value when recovered to the said Commissioner from the first amount levied under the said Writ; or if no such Writ be issued, a Writ of Execution free of Stamp Duty for the recovery of the said value to be appropriated in like manner. Provided that if the said value be inserted by the said Clerk as aforesaid in the writ issued by the party in whose favour judgment has been given, the first proceeds of such writ shall be applied to the payment of the fees due to the said Government Officer; and after such appropriation the proceeds shall next be applied to the payment of the said value of Stamps.

And no Summons, Subpœnas, Warrant of Arrest or in Execution, nor any other Citation or Writ whatsoever, which has once been issued out of the Court and returned by the officer to whom it was directed, shall on any pretext whatever be reissued, unless any such process has been returned not served or executed by reason that the party could not be found or had left the Jurisdiction of the Court, or by reason that no property of the debtor or none sufficient to satisfy the exigency of any Writ of Execution could be found.

Provided always, that in respect of any Subpœna the same may be re-issued although served, in case the Commissioner shall, on good cause shewn, so order. Provided also, that in appeals to the Supreme Court, the appellant shall furnish to the Clerk of the Court, the proper Stamp for the decree or order of the Supreme Court, and the Certificate in appeal which may be required for such appeal.

No party shall be allowed to take any proceedings on or by virtue of any Judgment or Decree, without first taking a copy thereof.

Exemptions.

All Affidavits or Affirmations, for verifying service of process; all warrants of attachment issued by the Court at its own instance.

Salt.

Revised Regulations respecting the sale of Salt in the Northern Province.

THE following revised Rules regarding the issue of Salt for exportation from the Northern Province are published for general information.

By His Excellency's Command,

Colonial Secretary's Office, W. C. GIBSON,
Colombo, 23rd August, 1861. *Col. Secy.*

CHARTS compiled from the Surveys of the officers of the Indian Navy, shewing the anchorage, and copies of sailing directions prepared by them in connection therewith, may be seen at the Offices of the Chief Secretary to Government at Fort William, the Colonial Secretary at Mauritius, and the Masters Attendant of Colombo and Galle.

The Salt will be shipped by and at the expense of Government if desired. The shipment of a cargo however cannot be guaranteed at any time out of the regular season for shipment as herein stated,* nor in any Vessel not at the usual anchorage at each port, and in respect to any such shipment that may be made, the expenses actually incurred in respect to it must be paid in addition to the stated price of the Salt when shipped by the purchaser.

If desired, boats can be held in readiness from a fixed day to be named by the purchaser, at an extra cost of 1*s*. 6*d*. per boat per day. In the absence of such arrangements, it will take from 1 to 3 days, according to the size of the vessel, to collect the full number of boats required; though shipment can commonly be commenced in all cases with a smaller number of boats within 36 hours of arrival.

The available resources in men and boats being limited, not more than 100 tons can commonly be shipped in one day. This is published specially for the consideration of Commanders or Charterers of large Vessels, and also with reference to the consideration of there being more than one Vessel loading at the same time, to prevent disappointment from greater dispatch in loading, than is practicable, being expected.

The Salt will be sold both at Jaffna and at Galle. As regards sales at Jaffna, the persons in charge of the Stores at Tondemanaar and Jaffna, are authorized to attend at once to applications, and to make arrangements for shipment, without the delay of reference to the Government Agent. The sales at Galle will be made by the Collector of Customs at Galle.

The quantity of Salt available will be published monthly, or oftener, as alterations in the quantity available may render necessary.

No Salt can be secured to any party in anticipation of the quantity that may become available.

All parties interested should also take notice, that Export duty and Port dues will be payable.

Of the quantity that may be stated to be available, 500 Tons at Tondemanaar, and 300 Tons at Jaffna, will be reserved at all times by the Government Agent at Jaffna, to be at the disposal of the Collector of Customs at Galle. With reference therefore to any application that may be made at Jaffna for Salt at Tondemanaar, when the stock on hand may not exceed 500 Tons, and for Salt at Jaffna when the Stock on hand may not exceed 300 Tons, it would be necessary to ascertain that it had not been sold at Galle, before such application could be complied with; and as regards the purchase at Galle of any quantity exceeding 500 Tons, and 300 Tons, there would be no guarantee as to the excess above those quantities respectively being available on the arrival of the vessel.

Information of the quantity in Store may also be obtained from the Collector of Customs at Colombo.

---

* The season for shipment at Jaffna is during January and February from Mandativoe, and at any time from Kaits. From Tondemanaar, the season is from March to September.

Customs Regulations.

Regulations on Landing of Goods.

In landing the Cargoes of Vessels, the Masters or Supercargoes of which are Europeans, each separate boat-load shall be accompanied by a Note addressed to the Collector of Customs, specifying the number and description of the Packages, and the marks and numbers affixed thereon; or if in bulk, the quantity, as far as can be ascertained, of the Goods so sent by them; and if any Goods be found in any boat without a boat note, or if being accompanied by such boat-note, the boat be found out of the proper track between the ship and the appointed place of landing, such boat, together with the Goods, may be detained; and unless the cause of deviation be explained to the satisfaction of the Collector, they shall be forfeited, as provided by the 22d clause of the Ordinance No. 18 of 1852.

Regulations respecting Goods in Transit by Mail Steamers.

All Goods in Transit by Mail Steamers, and declared to be so by the Master at the time of the ship's report, may be transshipped without Bond or Entry.

Goods arriving by Mail Steamers may be removed by land to any other Port, subject to the following regulations:—

Upon the Owner or his Agent making application to remove Goods, they will be delivered to be passed on to the intended Port under Bond, to the satisfaction of the Collector, for their due arrival at such Port: who, previous to the delivery thereof, will cause the proper Seals of Office to be affixed thereto; and if such Seals be broken, or if the Package at the Port of Discharge be found not to agree with the particulars given in the Letter of Advice from the Port of Removal, such Package, with its contents shall be forfeited, and the Bond given for the safe delivery of the Goods will be enforced under the 41st clause of the Ordinance No. 18 of 1852.

Regulations for the Carrying of Goods Coastwise.

1. All Trade by sea from one part of the Island of Ceylon, to another part of the same Island, to be deemed Coasting Trade, and all Vessels while so employed therein shall be deemed to be Coasting Vessels, and no part of such Voyage shall be deemed to be beyond Sea.

2. The Master of every Coasting Vessel which is to depart from any Port of this Island, shall deliver to the Collector an Entry Outwards in his name, and under his hand, of the name and destination of such Vessel, her Tonnage, and the number of the Crew, and thereupon the Collector shall grant a General Sufferance and authority for the shipping and lading of all goods, except such (if any) as shall be thereon expressly exempted.

3. The Master shall record on the said Sufferance all goods taken on board his Vessel, viz., the No. and description of Packages and the qualities, description and value of the goods therein; distinguishing, 1st, Goods Ex the Warehouse under Bond; 2ndly, Goods Foreign and Import duty paid, and shall afford proof that such duties have been paid; 3rdly, Goods the produce of Ceylon.

4. When goods are shipped for more than one Port, or for any place not a Port, the Master shall note separately the goods for each Port or Place.

5. Upon the production to the Collector of the Sufferance thus duly recorded and signed by the Master, and upon the furnishing by him of any further information that may be required, the Collector shall grant a clearance, according to the statement rendered by the Master, of the several sorts of goods laden on board such Vessel, and if the Master's account be false, he shall forfeit a sum not exceeding £10, and all goods

not appearing on the Clearance as duly shipped, shall be liable to seizure and forfeiture.

6. Coasting Vessels may call at places and Out Bays at which no Custom House Office is stationed, and may under the written Permit of the Collector of the Province in which such place is situated, land or ship any goods specified in the said permit, and the Headman, (duly authorized by the Government Agent for that Province,) of any place at which a Vessel may anchor, discharge, or ship Cargo, shall require the Master of such Vessel to produce to him the Clearance or Permit of such Vessel, and the Headman is enjoined and required, frequently to visit such Vessel, to examine and take an account of the goods landed or shipped, to note and write such particulars upon the Clearance or Permit of the Vessel, to detain such goods as shall be illegally landed or shipped, and to report any irregularity to the Government Agent or the nearest Officer of Customs.

7. All Timber, Salt, Arrack, or other goods which may be landed or shipped at places not authorized by the Clearance or Permit of the Vessel, will be liable to Forfeiture and may be seized by the Headman of such place, who is immediately to report the detention of the goods to the Collector of Customs for the District.

8. All Timber shipped without Permit of the Government or Assistant Government Agent, or being found not to agree with the description or dimensions specified in the Permit, shall and may be liable to seizure and forfeiture.

9. Coasting Vessels shall be allowed as Stores for the use of the Seamen on board, only the quantity of Arrack or Rum sanctioned by the Government Proclamation of December 30th 1854, and the quantity so shipped as Stores, shall be so entered on the Clearance of the Vessel.

10. On the removal of goods from one Warehousing Port to another, the parties at the Warehousing Port shall enter into Bond in double the amount of the duties leviable, that the goods shall be delivered into the charge of the Officers of Customs at the Port of destination; and the Collector at the Warehousing Port where the goods are shipped shall advise the Collector (by Post) at the Port of destination, of the shipment of the same, and unless the goods be landed at the Port for which they are entered outwards, or be otherwise accounted for, to the satisfaction of the Collector, the Bond will be put in force, and in the event of any deficiency occurring between the Port of lading and the Port of discharge, the duty will be charged thereon.

11. All goods laden, waterborne, or unladen, contrary to the aforegoing regulations, shall be forfeited, under the provisions of the 48th Clause of the Ordinance No. 18 of 1852.

12. No Vessel under 15 Tons burthen shall be employed in a Coasting Voyage, nor any Clearance or Permit granted to her, unless the Owner thereof shall have obtained from the Collector of the Port to which she belongs, a License, to be had on board on every such Voyage, specifying the name of such Vessel, the name of the Master, the name of the Owner and her Tonnage, and containing as many particulars of her dimensions and build as may be sufficient to identify her; but the Collector of Customs in each Province, may, if he should find it necessary, dispense in the case of Vessels and Boats plying solely on any Lake, Canal or River within his Province, with the Licenses, Sufferances and Permits aforesaid, and may substitute Boat Notes for Permits, &c.

13. The Tonnage of every such Vessel or Boat under 15 Tons shall be ascertained by measuring, 1st, The *Length between* the after part of the Stem, and the fore part of the Stern post; 2nd, The inside *Breadth* at midship ; 3rd, The *Depth at midship;* multiply these three dimensions together, and divide the product by 130, and the quotient will be the amount of the Tonnage of such Vessels.

14. Before licenses, as hereinbefore provided for, be granted, the Vessel shall, under the direction of the Collector of Customs, be inspected as to her being Sea-worthy, and her name, and the Port to which she belongs, shall be conspicuously painted on her Stern, and her Tonnage and No. of License marked upon the main Beam.

15. Licenses will be in force for the year in which they have been issued, and must be renewed immediately after the 1st January, in each year; all changes of Owners and Tindals, during the year, must be reported for endorsation upon the License by the Collector of Customs, and if the name of the person acting as Tindal, does not appear upon the License, the Officers of Customs may refuse to recognize or allow him to do business as such.

16. The wilful and fraudulent breach of these regulations will render the Vessel liable to seizure and forfeiture, and the Tindal or parties concerned to a fine not exceeding £10.

Warehouse Rates.

Table of Warehouse Rates for all Goods bonded in any Queen's Warehouse.

For every—									*Per Week.*
Butt, Pipe, or Puncheon	.	.	.	.	.	.	.	„	3*d*
Half Pipe or Hogshead	.	.	.	.	.	.	.	„	2
Barrel or Quarter Cask	.	.	.	.	.	.	.	„	1
Cask or Keg of smaller size	.	.	.	.	.	.	.	„	0½
Six dozen Case of Wine, Spirits, or other Liqueurs					.	.	.	„	2
Three dozen	do.		do.		.	.	.	„	1
One dozen	do.		do.		.	.	.	„	0½
Crate, Cask or Case of Hardware, Earthenware or Ironmongery							.	„	3
Bale of Indian Cloth	.	.	.	.	.	.	.	„	3
Half Bale	.	.	.	.	.	.	.	„	1½
Bale, Case, or Box measuring 60 cubic feet or upwards							.	„	4
Do.	do.	40 cubic feet and under 60					.	„	3
Do.	do.	20 cubic feet and under 40					.	„	2
Do.	do.	10 cubic feet and under 20					.	„	1
		Other small boxes or packages.					.	„	0½
Bag of Rice, Sugar, or Coffee							.	„	1
Ton of heavy Goods, Metals, Timber, &c.							.	„	6

Other Goods not enumerated, of the like weight or bulk, to be charged in proportion to these rates.

Double these rates will be charged on all Goods landed under the provisions of the 21st clause of the Ordinance No. 18 of 1852, which may not be entered or removed within Seven days. Goods left on the Quay, half of the above rates.

Goods brought to the Custom House for Exportation, and lodged in any of the Custom House premises, if not shipped within Two days, will also be charged half of the above rates.

Twenty-five per cent. will be deducted from the Rent for all time exceeding Fifty-two weeks. A week's rent will be charged for all fractions of a week.

Goods may be lodged in the Qeeen's Warehouse for a period of Seven days free of charge, when, if not entered and removed for consumption, or bonded, they will be liable to the rates abovementioned.

Port Dues.

Two pence per Ton for Entry Inwards and at the rate of Two pence per Ton for Clearance Outwards on all Ships and Vessels arriving at or departing from any Port of this Island. Provided always, that such Dues shall not be payable on any Vessel entering Inwards or clearing Outwards in Ballast, nor in cases when the cargoes are reported for Exportation, and ultimately the Vessel leaves the Port without breaking bulk, or taking in merchandize for the purpose of exportation.

No Vessel either at the time of entering Inwards with cargo, or at the time of clearing Outwards with cargo, shall be subject to pay more than Five pounds as Port Dues, whatever may be the Tonnage of the Vessel. Provided always, that a Vessel shall pay Port Dues only at one Port in this Island during the same voyage.

Any Vessel employed for the conveyance of goods between one Port and another in this Island only, shall be allowed to compound for Port Dues for Twelve months at the rate of One shilling per Ton of the registered tonnage; and on payment thereof, the Collector or other Principal Officer shall grant a Certificate, which shall exempt such Vessel, while so employed, from any further demand for Port Dues during the period stated in such Certificate.

Pilotage.

Rates of Pilotage payable by all Square-rigged Vessels, Sloops or Schooners, at the Ports of Colombo, Trincomalie and Galle.

COLOMBO .. .. £0 16*s.* 0*d.*

TRINCOMALIE.	*Back Bay.* £ *s.* *d.*	*Inner Harbour.* £ *s.* *d.*
Vessels of 600 Tons and upwards	2 0 0	4 0 0
400 and under 600	1 10 0	3 0 0
200 and under 400 .. .	1 1 0	2 2 0
100 and under 200	0 10 6	1 1 0
under 100	0 6 0	0 15 0
GALLE:		
Vessels of 600 Tons and upwards		3 0 0
400 and under 600		2 5 0
200 and under 400		1 10 0
100 and under 200		1 2 6
under 100		0 15 0

The above rates of Pilotage are charged on all Vessels going into the Inner Harbour of Trincomalie and the Harbour of Galle, whether they make a signal for a Pilot or not. In Colombo and the Back Bay of Trincomalie, the charge is only made if the Vessel make the signal, and a Pilot actually repair on board.

Ports and Harbours.

PORT OF COLOMBO.

This part of the Coast of Ceylon is low, with some isolated hills at a distance in the country. On the northern side of the Town of Colombo the ground rises a little, and is covered with lofty Cocoanut and other trees, which are generally seen coming from seaward before the Light house or Flag Staff.

The high mountain having on it a sharp cone, called Adams Peak, bears from Colombo E. $\frac{1}{2}$ S. distant 46 miles. It rises 7,420 feet above the level of the sea, and in clear weather has been seen at the distance of 30 leagues. In the N. E. monsoon, it is generally visible in the morning, and sometimes throughout the day: but it is rarely seen in the S. W. monsoon through the humid atmosphere which prevails in that season.

A brilliant light is exhibited every night from a Lantern on the Clock Tower of the Fort. The height of the light above the sea is 137 feet, and it may be seen in clear weather until intercepted by the horizon. The Light House is in latitude 6° 56′ 6″ North and in longitude 79° 49′ 48″ East.

About 7 miles off shore there is a steep bank of coral and sand with 15 fathoms of water over it. It is not more than half a mile broad, but extends several miles in the direction of the coast. About two miles to the westward of the banks soundings are obtained in 28 fathoms water on greenish sand, and close to it there are 23 fathoms. After passing over the bank the water suddenly deepens to 25 fathoms on sand, and from thence the depth gradually lessens as the shore is approached. About three quarters of a mile S. W. by W. $\frac{1}{2}$ W. from the Light-house lies the northern and shallowest part of a bed of rocks called the "Drunken Sailor," on which the sea generally breaks, the depth of water being only 6 feet. This ledge is about 100 yards in length, but with the exception of about twenty yards of the northern part, there are 4, 5, and 6 fathoms on it. In the N. E. monsoon, when the sea is smooth and the breakers are not seen, it is prudent not to come within 9 fathoms water, as there are 8 fathoms close to the rocks. The passage within the ledge is clear with 7 fathoms on sandy bottom, but the position of these rocks is so near the shore and so much to the southward of the usual anchorage, that no advantage can be gained by steering near them at any time. The currents off Colombo are subject to considerable variation, particularly about the changes of the monsoon, when they are the strongest; but generally there is not so much current as to inconvenience shipping having to communicate with the shore without coming to anchor.

The greatest difference between high and low water recorded at Colombo is not more than 2 ft. 10 inches. In the S. W. monsoon when the mean level of the Ocean is the lowest, the difference between high and low water is from 5 to 15 inches. On those days when the difference between high and low water is not more than 6 inches, the rise and fall has been observed to take place four times within 24 hours.

The anchorage ground is very good in Colombo roadstead, particularly in 7 and 8 fathoms, with the Lighthouse bearing S. S. E. and the Dutch Church E. by S. $\frac{1}{2}$ S. In the N. E. monsoon merchant ships frequently anchor in 6$\frac{1}{2}$ fathoms with the Lighthouse bearing S. $\frac{1}{2}$ E. and the Dutch Church E. by S. $\frac{3}{4}$ S.

Whenever a Pilot is required on board, the charge for his services is 15 shillings.

From the Custom House point a shifting sand bank, or bar, extends to the N. N. W. about 200 fathoms, on which the depth of water is sometimes not more than 7 feet. Small vessels that draw 9 feet water moor within the bar, and are protected by it and the Custom House point from the S. W. wind and sea.

When the sea is high, it breaks with great force on the bar, and renders the passage to and from the shipping in the outer roads dangerous for small boats. The boats belonging to the Port and native boats pass out and in to the southward of the breakers on the bar, by keeping as close as possible to the breakers on the rocky point, round which is the landing wharf. But this passage should not be attempted by a stranger, when the sea breaks heavily on the bar: it is then more safe to pass to the northward of the breakers. The anchorage off Colombo is so much frequented at all seasons of the year, that little need be said about it. It may however be as well to mention, that in the S. W. monsoon it is prudent to ride with a long scope of cable, as sometimes the squalls are

strong. Commanders of ships should take special care to secure the small iron pins in their chain cables, as the constant pitching motion caused by the S. W. monsoon swell, has very frequently worked out the small iron pins by the beating of the cables on sandy bottom. Hard wooden pins dipped in white lead have been used successfully, instead of iron ones, by some of the regular trading ships.

J. STEUART, *Master Attendant.*

PORT OF POINT DE GALLE.

Point de Galle Lighthouse in Latitude 6° 1′ 45″ N., Longitude 80° 16′ E. stands at the southern angle of the Fort, which is built on a rocky peninsula; several rocky islets lay off the Lighthouse, one of which (named Pigeon Island) has 3 Cocoanut trees on it: the harbour is to the eastward of the Fort; watering point at the opposite side of the entrance, bearing from the Lighthouse E. by S. ½ S. 1 mile; it is considered safe at all seasons, but many rocks having from 3 to 20 feet water are scattered over the entrance and inside, rendering it necessary for Vessels to take a Pilot: the outermost of these rocks having 12 feet water on it, bears from the Lighthouse about S. by E. ¾ E. ⅝ mile.

The best anchorage in the roads is to the S. W. of these rocks, in from 15 to 18 fathoms water, with the Lighthouse on with the Haycock, or the Church with Pilot's tree; or, if the marks cannot be distinguished, the Lighthouse bearing from N. by E. to N. N. E. about 1 mile off shore:

S. W. by W. 3 miles from Galle Lighthouse there is a rocky Bank called Gallehoogalle Bank, nearly a mile in extent, having in one place only 16 fathoms water, the general depth on it being 18 to 22; inside this bank there is 29 fathoms, and close to it outside, 30 to 35.

Bellows Rock which always breaks, bears from Galle Lighthouse S. 50 E. 2½ miles, and from Danawatty Point (the extreme of the high land forming the East side of Galle Harbour) S. S. E. ¾ E. a large ½ mile, there is 10 fathoms water close to the Rock on the outside.

Gindura Rock, which is very dangerous, lies about 2 miles directly off the mouth of the Gindura River, and bears from Galle Lighthouse W. by N. ¼ N. 4 ⅛ m.; (it is called by the natives *Medda* Rock;) there is only 9 feet water on its shoalest part, 4 and 5 fathoms about a cable's length from it all round, and 15 fathoms ¼ m. outside: Oonawatty Point kept open outside the breakers of the Whale, clears on the outside; or, the extreme of the land to the Northward kept open of some rocky islets situate close to the shore about 6 miles to the northward of Gindura Rock.

The Whale bears from Galle Lighthouse W. 4° N. 2½ miles, and is nearly 1½ mile from the shore; it always breaks, but in fine weather only once in 4 or 5 minutes, so that a good lookout is then necessary when passing it; there are 7 fms. water close outside, 12 fms. ¼ mile, and 20 fms. ¾ mile off.

The Little Whale, a small rock above water with 7 fms. close to all round, lies about half way between the Whale and Galle Lighthouse on the same line of bearing.

The Haycock, a high conical mountain conspicuous from seaward, is a good landmark for this part of the Coast; it bears from Galle Lighthouse N. by E. ¼ E. distant about 20 Miles.

J. H. TWYNAM, *Master Attendant.*

THE HARBOUR OF TRINCOMALIE.

TRINCOMALIE, situated on the east side of the Island of Ceylon, contains a most spacious safe harbour, and with its small bays and coves is perhaps superior to any in India. Every part of the harbour is land-locked, the anchorage good for any number of Ships and of any burthen.

Back Bay, from the 1st of April to the 25th October, is also an excellent anchorage with from 10 to 5 fathoms water good holding ground, sea quite smooth, so that the smallest boats may land. Fort Frederick forms the S. E. point of the Bay; the Flag-staff there is in Latitude 8° 35′ 38″ N. and Long. 81° 14′ 52″ E. A good light which can be seen 15 miles off is exhibited at the Flag-staff every night soon after sun-set; it is 206 feet above the level of the sea, and serves to guide Ships by night clear of the rocks off Pigeon Island to the north, and the shoals off Foul Point to the S. E., as well as to lead them to an anchorage in Back Bay. Pilots for the inner harbour are necessary, as there are dangerous

shoals outside and inside; but Back Bay is quite safe. Vessels may lie within 1-3rd of a mile from the Custom House in 5 fathoms water. The Custom House is opened for business on the 1st of April, and continues until 25th of October, when all is changed to the Custom House in the Inner Harbour.

A NEW LIGHT was exhibited at Flag-staff Point Trincomalie on the night of the 1st Oct. 1845, and is continued every night from sun-set until day light.

The Lantern having a fixed light with two powerful reflectors, when hoisted, is 206 feet above the level of the sea. The Light can be seen 15 miles off from any bearing between Pigeon Island and Foul Point, comprehending an angle of 140 degrees.

The following remarks are published for general information:—

Latitude of the Light	8°	35′	38″	N
Longitude from Madras Flag-staff	0	58	22	E
Longitude from Greenwich	81	14	52	E
Variation of the Compass	0	59	37	E

Foul Point bears from the Light S. 55° E. distant 5½ miles, and the extreme of the reef off that point S. 60° E. nearly 5 miles.

Ships coming from the S. E. with a fair wind at night and having made the Light should on no account in passing Foul Point bring the Light to bear to the northward of W. N. W., that bearing will take a Ship more than half a mile to the northward of the reef and in not less than 14 fathoms water. If it is intended to anchor in Back Bay (which Ships may safely do between the middle of March and 25th October) and having brought the Light to bear W. N. W. they may steer directly for it rounding Flag-staff Point close (the point being steep to) and anchor in 10 fathoms water with the Light bearing about S. b. E., small Vessels may anchor in 6 or 7 fathoms water with the Light bearing S. E. b. E.

From the Light the outside visible Rock of Pigeon Island, distant about 9 miles, is in a direct line with Elizabeth Point, bearing N. 15° W. Ships coming from the northward and wishing to anchor in Back Bay should be cautious not to bring the Light to bear to the eastward of south; that bearing will lead 2 miles to the eastward of Pigeon Island and nearly a mile to the eastward of the Lively Rocks. These Rocks lie half a mile to the eastward of Elizabeth Point having 4 fathoms water close to. When quite sure of being to the southward of the Lively Rocks, ships may bring the Light to bear S. by E. and anchor in Back Bay as before directed.

After the 25th October the anchorage in Back Bay is not safe until the middle of March, as there is frequently towards the end of October before the North East monsoon sets in, a heavy swell with variable winds. Ships should not attempt the Inner Harbour during the night except under most favourable circumstances, such as good moon-light and having a person on board possessing local knowledge of the Harbour and the entrance to it. In such a case and being abreast of Flag-staff Point the Light kept N. N. W. ¼ W. will lead clear of Chapel Rocks. The extreme Rock which is under water, bears from the Light S. 18° E. distant 2 miles.

JOSEPH HIGGS, *Master Attendant.*

INSTRUCTIONS FOR NAVIGATING THE GULF OF MANAAR.

Some few years since it was considered a hazardous undertaking for a Vessel of any size to proceed far up into the Gulf of Manaar, the more particularly during the S.W. Monsoon, when it was supposed to be impossible to beat out again. Later experience, however, has shewn that no dangers exist that may not be avoided by ordinary care and attention; and that as regards working to windward against the Monsoons, no difficulty will be experienced if the following instructions be attended to.

In the N.E. Monsoon, that is, from November to March inclusive, fine weather, with land and sea breezes, will be found to prevail on the Ceylon side of the Gulf, where good anchorage may always be selected between Colombo and Chilaw, at 1½ to 3 miles off shore, in 6 to 9 fathoms, sand. Vessels wishing to beat up during the first three months ought therefore to keep over on that side till they have advanced sufficiently far to make certain of their port if bound to the Indian coast, as the breezes there may be expected to blow steadily and strong N.N.E. with a strong lee current. In rounding the Cape Comorin at this

time the Indian shore may be kept on board till abreast of Manupaud Point, a high promontory, with a small white Church erected on its summit. A Vessel may then stretch across with advantage, and probably in the next tack fetch Tuticoreen, the only port on the Indian coast frequented by large Vessels.

Small Vessels of light draught will also find this the easiest method of working up; and if bound to Paumben had better keep the Ceylon shore till abreast of Calpentyn, which they may know by the three long hills of Kodramallai, the only ones near the coast. They can then stand across, and make Paumben either by the eastern channel between the Island of Ramisseram and the Reef and Island south of that port, or by the western channel between Freshwater and Anapaar Islands at Valinookum Point.

In the S.W. Monsoon a Ship ought to keep over on the Indian side till near Manapaud Point, when she will generally be able to fetch to windward of Colombo, and be clear of all dangers. The only safe place for Vessels of size to anchor in on the Ceylon coast, during this Monsoon, is at Colombo, where the current from the Kalany Ganga or Mutwall River, running to windward, takes much of the strain off the cables of Vessels riding there. Should one nevertheless part, or find it necessary to slip, she may seek safety by standing across the Gulf to Tuticoreen, which, being situated on the weather side, affords good shelter and anchorage. A fixed light, seen 8 or 10 miles off, was erected on Hare Island at this port last year with a view to facilitate the approach to the anchorage during the night; and the instructions relative to it are herewith republished.

Small craft working down from Paumben will do well to keep inside the Islands till they reach the Western entrance of the inland navigation at Valinookum Point. They can now work down near the coast as far as Manapaud Point, when their fetching Colombo on the starboard tack may be considered certain.

Colombo Flagstaff, which is close to the lighthouse, is in 6° 56′ 6″ North latitude, and 79° 56′ 6″ East longitude. The anchorage, as given by Captain Steuart, the Master Attendant, is in 7 to 8¾ fathoms during the S.W. Monsoon, with the lighthouse S.S.E. Easterly, and the Dutch Church, a large building in the bottom of the bay, the upper part of which having a thatched belfry may be seen over the houses of the Town, bearing E. by S. In the N.E. Monsoon Vessels may anchor farther in, with the light S. ½ E. and the same Church E.S.E. in 6½ to 7 fathoms, sand and mud in each position. The Drunken Sailor, a patch of rocks about 100 yards long and 20 broad, with only 6 feet over it in some parts, is situated 1,150 yards S.W. by W. ½ W. of the Flagstaff, and 1,000 yards off the nearest shore. It has from 6 to 9 fathoms close round it.

The Harbour, which is only used by small craft, is well protected during the S.W. Monsoon by the Custom House Point, behind which they anchor in 2½ to 3½ fathoms, sand, with it bearing from S.W. to W.S W., and Mutwall Point N. by E. to N.N.E. A sandy spit extends from the first-named Point in a northerly direction, with 1½ to 2½ fathoms over it and 5 to 6 fathoms close outside. To avoid this the Dutch Church ought to be kept E. by S. ½ S. till the Custom House bears S. by W.

Negombo Fort, off which Vessels may shortly have to anchor for the purpose of shipping Sugar the produce of estates lately brought under cultivation in its vicinity, is in 7° 12′ 9″ North latitude, and 79° 53′ East longitude. The best anchorage is a mile off shore, with the Fort about East, Northerly, just clear of Negombo rocky point, in 6½ to 7 fathoms, sand; but as this sand is not deep, and the stream of the Negombo Lake, which empties itself here, sets to the North, I would decidedly warn Vessels from anchoring here during the S.W. Monsoon, or from May to August, inclusive. Rocks awash extend from the Point N. by W. ½ W. for 400 yards, and the ledge may be then traced in the same direction, with 3, 4, and 5 fathoms over it for 2¾ miles further, till it terminates in a coral patch, having 9 to 12 feet over it, 3½ miles off shore. Small craft can cross this ledge, and anchor in 2 to 3 fathoms, with Negombo Point S.W. ½ W., and the Fort S.E. by E., from ¼ to ½ mile off shore.

Chilaw Bungalow, in 7° 34′ North latitude, and 79° 51′ 29″ East longitude, may be known by its high red tiled roof, seen 8 or 9 miles off in clear weather. On the Charts now extant some rocks are placed near this at some distance from the shore, but they were found to be not more than ¾ of a mile off, and consequently cannot be considered as forming any obstacle to general navigation. They are situated 5 miles due North of the Bungalow; and are in a line between it and the next Point. Twenty-one miles North of the Bungalow uneven soundings on rock, to as little as 3¼ fathoms are found from 3 to 4 miles off shore, with 6 and 8 fathoms immediately outside. Vessels of size therefore ought to be careful not to come within this distance of the land hereabouts, although small craft can at all times go over the shoal.

Dutch Bay, in 8° 19′ North latitude, and 79° 50′ East longitude, is well sheltered from all winds, but more particularly from the S.W., which are the strongest on the coast. Vessels can anchor here in 2½ to 3 fathoms, stiff mud, close inside the neck of sand that forms the Western side of the Bay, with a Cocoanut tope and house called Paringethoray bearing S.S.W. The only dangers in the approach to it are a rocky patch, with 2¾ over it at low water, 2 miles W.S.W. of the North end of the neck of sand before mentioned, and some shoal water 3 miles N.N.W. off the same Point, and 2½ miles West of some Palmyra trees, a few of which are leafless, on the Island of Karateevo. This last extends North and South about 2 miles, with an average breadth of one, having from 3 feet to 3 fathoms, with a small patch of sand, generally dry, due West of the above trees. There are 4 to 5 fathoms to the Eastward of this reef, but no person, without being well acquainted with the coast, ought to attempt the passage inside. From seaward the North end of the neck of sand ought to be brought to bear S.E. ½ E., when it can be steered for, and passed within 50 yards, carrying 3 to 4 fathoms, sand.

Very good anchorage in the S.W. Monsoon may also be found under the lee of Kodramallai Point, in 8° 32′ North latitude, and 79° 56′ East longitude, which may be known by the three long hills seen over the low land of Karateevo. In steering for this anchorage, the North end of the hills ought to be kept about E. by S. till well past the island, when the anchor may be let go in 2½ to 3½ fathoms, sand, with the rocky promontory bearing S.S.W. to S.W., ½ to 1½ mile off.

No Vessels ought to proceed on the Ceylon side further towards the head of the Gulf than this, as there are many shoal places at some distance from the shore, and no good holding ground. In the S.W. Monsoon a strong current is found setting to the Northward over Adam's bridge, which abates as the Indian coast is approached; and a confused sea is generally found to prevail near Manaar.

The Eastern entrance to Paumben is in 9° 15′ 30″ North latitude, and 79° 17′ East longitude. Some small islets are situated at the East end of the reef between which and the island of Ramisseram the channel leads. A pole has lately been erected on the Northern limit of the shoal water inside these islets, between which and Ramisseram deep water is to be found. The south end of the cut through the horse-shoe bank, by which Vessels have to pass in going through the Paumben channel, bears from this pole E. by N.

A fixed light has lately been exhibited at Paumben, seen 11 to 12 miles off in clear weather, respecting which directions have been separately published, and which are recommended to the notice of Mariners frequenting the port.

The Western entrance to Paumben is situated in 9° 9′ North latitude, and 78° 40′ East Longitude, lying between Valinookam Point, on the Main coast of India, and the small island of Anapaar, which last must not be approached nearer than a mile till the South end bears South of East.

The passage will then be entered, when a straight course for Keelakarry at N.E. by E. may be kept, care being taken to avoid some reefs nearly awash which lie off Erawaddy Point, the easternmost limit of the deep bay opposite the entrance just described. Five and six fathoms will be found at this entrance, shoaling to 3 farther in, with an occasional cast of 2¼, sand. The best anchorage at Keelakarry is in 2¾ to 3 fathoms, stiff mud, with a detached ruin East of the town bearing North, and some large terraced houses N.W. Pilots here come on board to take vessels to Paumben, which lies 26 miles farther to the Eastward; but should a Vessel proceed without such assistance, the following directions must be followed.

Steer for a little outside the next Point (Naagimundel) till a small tope between a hillock at the mouth of a rivulet and an old ruined temple bears North. Then stand across about S.E. ½ E. for a little outside the West end of the next island (Talliari). This leads over the deepest part of a spit in 2¼ fathoms, with 7 feet on each side, where a buoy will shortly be moored to indicate the channel. Two bungalows at the next Point on the Main will now be seen, and when they bear N.E. ½ E. steer E.N.E. till they are passed, when due East will take a Vessel to the buoys on each side of the passage at Ramasawmy's Choultry. To avoid a sandy knoll with only 7 feet over it, the Southern of these buoys ought to bear E. by N. when about ¼ mile off; and after passing between them steer about East, for a high beacon erected on a patch of rocks. Leaving this 50 to 100 yards to the Southward, stand on for the North end of the next island, Pulleeteevo, and round it at about ¼ mile off, keeping E.N.E. till the opening between Pulleeteevo and the next Island bears South; then steer East, and

anchor near the sand bank channel which has a buoy to mark its position. No Vessel drawing more than 8½ feet ought to attempt this navigation without a Keelakarry Pilot.

Tuticoreen Light is in 8° 47′ 17″ North latitude, and 78° 14′ 1″ East longitude. The following are the directions respecting it before adverted to.

A Vessel making the Port at night may anchor with it bearing from W. N. W. to W. by S. about 1¾ to 2 miles off shore, where good holding ground will be found in 6 to 6½ fathoms. At 3½ miles distance with the same bearings the ground is foul, on Pearl banks.

In approaching from the South, the light may be kept about N. N. W. till within 3 or 4 miles, when the above anchorage may be selected; but should a Vessel suddenly deepen her water from 7 or 8 fathoms to 12, 15, or 20, she should immediately steer North till she makes the light, taking care to keep further to seaward if it bears North of N. N. W. The outer part of this deep water lies a little to the North of the head of the Coilnapatam reef, and bears S. by E. 10 miles from the Tuticoreen Light.

From the North a Vessel may keep the light about S. W. till within 3 or 4 miles, when she must steer more out for the anchorage; but in no instance ought the water to be shoaled under 6½ fathoms, excepting with the bearings on for the anchorage, and then not under 6.

In the N. E. Monsoon Vessels should lie with a good scope of cable out, as although the seas are not heavy, they are sharp, and occasion a chain to jerk, The sea breeze at this time blows on the reef, and a second anchor, with chain ranged, ought always to be kept ready for letting go.

In the S. W. Monsoon, which usually lasts from the middle of May to the middle of August, the Port may be made without fear, for although the winds are very violent, they are invariably off shore from W. to S. W. accompanied by smooth water. At this time Vessels may approach the reef to 5 fathoms; but should always have a stream anchor to seaward, as occasionally, during the lulls of the Monsoon, a light air comes in from the Eastward.

As a rule, Vessels of size ought not to approach the land above Tuticoreen nearer than 6 or 7 miles, as 2½ or 3 fathoms are found 5 miles off in some places. When some large clumpy trees at Putnurmadoor, seen 10 miles off, and when no other object on shore is visible, bear North of West, the shoal water is to the Northward.

There are two channels for small craft into Tuticoreen harbour, but that to the North is so intricate as to be seldom used. The Southern one leads between the southernmost island and the mainland, the reef connecting them being crossed in 12 to 14 feet at distance of ½ to 1½ mile of the island. This being passed, a course may be steered for Devil's Point on the Main, after closely rounding which a small Vessel may stand direct for the town of Tuticoreen, carrying 11 to 9 feet. Before passing Devil's Point 2½ fathoms are found, sand and mud.

At the distance of 2½ miles due East of the Pennacoil tope, a scanty tope to the south of a large ruined building, 9 miles from Devil's Point, is situated the inner edge of an extraordinary natural basin in the rocks, 4½ miles East and West, and averaging 1¼ miles in breadth: the outer part being the broadest and deepest. The bottom is composed of fine sand and mud, in 7 fathoms on the Western, to 18 and 20 fathoms on the Eastern extreme, from which it suddenly shoals to 9, 8, and 7½ fathoms on a Pearl bank. In standing up the coast during the night with a scant wind, this is good ground for ascertaining a Vessel's position, as no similar spot exists from Paumben to Comorin. From the outer part, in 15 to 20 fathoms, the anchorage off Tuticoreen bears N. by E. 9½ miles.

Good anchorage in 3 to 4 fathoms, mud, with this tope bearing West 1 to 1½ mile, is to be found here during the Southerly winds under the lee of a reef which commences 2½ miles N. E. by N. of the next point (Coilnapatnam), and continues with little exception to Cape Comorin. As far as Manapaud Point this reef varies in its distance from the land from 1 to 2¾ miles, but thence to Comorin it seldom exceeds ½ a mile. The head of this reef lies S. by W. 10½ miles from Tuticoreen Light.

Trichendore Point, in 8° 29′ 55″ North latitude, and 78° 9′ 51″ East longitude is 18 miles S. by W. Westerly of Tuticoreen Light, and may be known by its having a high dark Pagoda on its extremity, seen in ordinary weather 12 to 18 miles off.

Manapaud Point, situated 8½ miles S. S. W. ¼ W. of the Trichendore Pagoda, is a high sandy promontory jutting out boldly into the sea. It has a small white-washed Church on its summit, visible in clear weather 12 to 13 miles off, which appears at first like a ship under sail. Some foul ground in 4 to 10 fathoms is

situated off this point, extending E. N. E. and W. S. W. 10 miles, with an average breadth of 1 mile.

The following are the bearings of the two shoalest parts:—

Inner shoal part.

Manapaud Church.....N. 54° W. 5 miles
Trichendore Pagoda.....N. 1° W. 10¼ „ } 4½ fathoms sand.

Central shoal part.

Manapaud Church.....N. 54° W. 8 miles
Trichendore Pagoda.....N. 12° W. 12½ „ } 4 fathoms sand.

There are many other patches with 5½ and 6 fathoms over which Vessels might pass, yet the safest plan when going between the reef and the Point is not to bring the Church to the West of North till within 2 or 3 miles of it. An E. N. E. course will then take a Vessel out clear.

Cape Comorin, which is placed by Colonel Lambton in his Trigonometrical survey in 8° 4′ 35″ North latitude, and 77° 34′ 46″ East longitude, rises in a gradual slope, is covered on the East side with Palmyra trees, and may be easily distinguished by the reddish appearance of the soil, and a large white Choultry situated near the beach. Two large rocks with a small one outside, on which the sea at all times breaks with much violence, stretch to the distance of ¼ mile from the shore. They are steep to and may with a fair wind be approached within ¼ mile in 8 or 8½ fathoms, but with scant wind caution is necessary, as the current sets rapidly round the Point, and may drift a vessel into danger.

The breezes in the Gulf of Manaar are generally stronger than the adjacent coasts, the only moderate months being April and October; yet if the instructions already given be attended to, no difficulty will be found in working up or down against them. The N. E. Monsoon sets in with force about the middle of November, and lasts till the end of January, bringing with it a current of from 20 to 30 miles a day to the S. W. It blows steadily from N. N. E. along the Indian shore, but on the opposite side is modified into land and sea breezes, with very fine weather. In February land and sea breezes commence on the Indian side; and by April the general set of the wind in the Gulf will be found to have drawn round to the Southward, the sea breezes being S. E. to S. W., according to the coast on which they prevail. These now increase in force till about the middle of May, when the regular S. W. Monsoon sets in, blowing with great violence from W. S. W. on the Indian coast, and S. W. on the Ceylon coast, where it commences rather earlier, and is attended with heavy falls of rain, thunder and lightning. In August the strength of the Monsoon abates, but strong Southerly winds are still experienced in this and the next month, becoming lighter as the season advances. Variable and gentle breezes, with smooth water, may usually be expected in October, lasting till the setting in of the N. E. Monsoon, which is ushered in on the Indian side by 15 or 20 days of heavy rain.

The current will generally be found to set with the wind in the strength of the Monsoons; but this is not invariably the case. Care and attention must therefore be paid to the soundings, and unless a good Pilot be on board, a Vessel ought not to shoal her water during the night to less than 12 fathoms above or 18 or 20 fathoms below Manapaud on the Indian coast; or to less than 10 fathoms above and 20 below Colombo, increasing the depth to 40 till abreast of Point de Galle on the Ceylon coast; excepting of course her position be ascertained by the bearing of the light at Tuticoreen or Colombo.

Average high water occurs at 1 p. m. on full and change—ordinary rise and fall 18 to 24 inches—at springs 30 to 36 inches. The flood sets in about E. N. E., and the ebb about S. W., but their direction is greatly influenced by the wind. The variation of the compass may be stated at about 1° Easterly.

All the above longitudes are calculated on the assumption of the Galle Flagstaff being in 80° 16′ East.

JOHN J. FRANKLIN,
Late in charge of the Manaar Survey.

Madras, May 21st 1846.

PAUMBEN LIGHT HOUSE.

The facilities for the passage of Vessels through the channels at Paumben, having been considerably increased of late, the following notice is published for general information:—

Paumben Light House is in			
Latitude	9°	17′	30″ N.
Longitude	79°	12′	34″ E.
Assuming Galle Light to be in	80°	14′	20″ E.

The light is placed on a column erected on a Hill to the Eastward of the Town of Paumben, is 84 feet above the level of the Sea, and in ordinary weathers hould be seen from the deck of a small craft, such as usually navigate the Gulf of Manaar and Palks Bay, from 11 to 12 miles off.

In making Paumben from the North during the night. Vessels may run for the light bearing S. W. to E. S. E., keeping rather out in coming from the Eastward, if under 6 fathoms, as the water shoals suddenly after that depth is obtained off the coast of Ramisseram.

The best anchorage is with the light bearing from S. E. ½ E. to E. S. E., ½ mile to 1 mile off, in 3½ to 4 fathoms, sand and mud, good holding ground. The Northern entrance to the Channel, which is indicated by a Black Buoy, will then be from ¼ to ½ mile off.

In approaching during the night from the South, care must be taken to avoid the 2 Fathom Rock, from which the light bears N. 14° W. 17 miles, and which has 3½ to 5 fathoms in its immediate neighbourhood. If from the Westward, a vessel ought to bring the light North, and run with that bearing till about 5 miles off, which, after taking her over a rocky ledge having 3½ to 5½ fathoms on, will place her in 5½ to 6½ fathoms, mud and sand, about 1½ mile from the reef extending Westward from the shingle Islets. She may then steer N. E. by E. ½ E., till the light bears N. W. by W., when she can run for it till in smooth water, and anchor in 4 to 5 fathoms, sand and mud, between the land and shingle Islets before mentioned.

If the light is made from the Eastward, a vessel ought to keep it N. N. W. ½ W., edging out or to the North a little as she shoals her water to 4 fathoms, to avoid the shingle Islets, the Eastern end of the Reef off which bears from the light S. 24° E. 3¼ miles. She may then anchor as before. This course would take her very near a patch of rock with 3 fathoms on, but as the Craft using the Channel are of light draught, no fear need be entertained of striking on it.

These instructions for the South Entrance are intended for the use of Vessels nearing the Port during the S. W. Monsoon. In the N. E. Monsoon the Island of Ramisseram, which may be approached on this side to within a cable's length, becoming a weather shore, the water is sufficiently smooth to allow of Vessels anchoring anywhere, and the bearings above given clearly shew the dangers to be avoided.

The least water in the Paumben Channel at the lowest spring tide is 8½ feet, but as the average rise on this is 26 to 28 inches, and in October, November and December, 30 to 36, and at times even 42 inches, Vessels drawing 10 feet can safely make use of it. Native Pilots are always ready to carry Vessels through; and to obviate any inconvenience which might be felt by Commanders unable to speak their language, a Hindoo-Briton is employed as Head Pilot, whose services will be always available.

By order of the Marine Board,
JOHN J. FRANKLIN, Secretary.

Madras, Marine Board Office,
23rd April 1852.

THE BASSES.

Galle, September 12th, 1860.

Little Basses tail, is half a mile in length, with only 3 fathoms on it. It lies N. by W. $1\frac{2}{3}$ miles from the Little Basses reef. This patch is supposed to be the one on which the Ship "Atlas" struck the *first* time in 1813 (*vide* Horsburg, page 563.)

Atlas reef, with only 3 fathoms, is about a cable's length in extent, N. E. by N. $1\frac{4}{10}$ miles from the Little Basses reef, and is supposed to be the danger on which the "Atlas" struck the *second* time, in 1813. Between it and the Little Basses reef tail, anchorage for a light vessel may be obtained in 6 fathoms, sand and stones, with the centre of the Little Basses reef bearing S. W. $\frac{1}{2}$ a mile. The reef breaks heavily.

Dædalus reef. This dangerous patch was discovered by H. M. S. "Cyclops" striking on it on the 30th July last; it is probably the one on which H. M. Ship "Dædalus" was lost in 1813, (Horsburg 562.) The "Cyclops" drawing 15 feet, went from 6 fathoms on to the rock, and for several minutes struck heavily, lifting her rudder twice.

The least water obtained all round the Ship was $3\frac{3}{4}$ fathoms. The rock is evidently a pinnacle, with about 14 feet on it, and having 5, 6, and 7 fathoms close to—(no sign of a break was observed at the time the Ship struck.) From it the centre of the Little Basses bears S. 25° E. $34\frac{1}{4}$ miles; Chimney Hill N. 56° W., and Nipple Peak N. 75° W.—it is distant from the nearest shore $1\frac{1}{2}$ miles.

Cyclops reef—so called in consequence of the "Cyclops" striking several times, and in different places—consists of a hard, narrow, sandy ridge, with patches of boulders, having only 2 fathoms in some places. It lies E. by N. $\frac{1}{2}$ N, and W. by S $\frac{1}{2}$ S. for a distance of $4\frac{3}{4}$ miles, and is from $\frac{1}{4}$ to $\frac{1}{2}$ mile in breadth. From its West end in 3 fathoms, Potana point bears North 2 miles; and from its Eastern end in 4 fathoms, Chimney Hill bears N. $\frac{1}{4}$ W., the shore in that direction being distant $3\frac{1}{2}$ miles. Between the reef and the shore is a channel with 7, 9, and 12 fathoms.

Breakers are occasionally seen on shoal patches of this reef.

Potana Patch—breaks very heavily, and appears to be about $\frac{1}{4}$ of a mile in extent. It lies W. by S. $\frac{1}{2}$ S. from the west end of Cyclops reef, the distance being $1\frac{3}{4}$ miles, forming a clear channel with from 8 to 10 fathoms. To sail through keep Chimney Hill on with the Eastern slope of Potana point bearing N. by E. $\frac{3}{4}$ E.

Elephant reef—also breaks heavily, and lies N. E. $\frac{1}{2}$ E. and S. W. $\frac{1}{2}$ W., $1\frac{1}{2}$ miles long; its N. E. end being 1 mile from Potana patch. This supposed channel has, however, never been sounded, and should not therefore be tried. The N. E. end is $1\frac{1}{3}$ miles from the shore, with Elephant Hill, and Elephant Rock in line, N. W. $\frac{1}{4}$ N. The S. W. extremity is 1 mile S. W. $\frac{1}{4}$ W. of the detached rock off Anadowe point. Between the reef and the shore is a clear channel, with from 8 to 9 fathoms, but should never be attempted by strangers, as the Coast permits of no leading or back mark being given.

Masters of Ships should, under *any* and *every* circumstance, carefully avoid attempting to pass inside the line of the Great and Little Basses.

The foregoing bearings are Magnetic.

The current during the S. W. Monsoon, sets along the line of Coast, between Point de Galle and the Little Basses, to the East and N. E., at rates varying from 1 to 2 miles per hour.

G. F. McDougall,
Master, R. N., in charge of Ceylon Survey.

	Lat.

Board of Health.

General Rules framed by the Board of Health and in force in the Western Province. *

SMALL POX CHOLERA, &C.

1. The Police shall make known to the Superintendent of Vaccination, with the least possible delay, the occurrence of any case of Small Pox or any other Epidemic or contagious disease. In the Rural districts such information shall be afforded by the Native Headmen.

2. The Medical Officer appointed to inspect such cases shall, in every instance of Small Pox, give information thereof to the Superintendent of Police, who shall forthwith affix to the door of the house in which the case is found, such mark as shall sufficiently denote the existence of the disease therein.

3. Before such mark shall be removed, the Superintendent of Police shall communicate to the appointed Medical Officer the result of such case or cases of Small Pox, whether in death or in recovery. In either case he will receive instructions from the Medical Officer as to the safety of removing the mark from the house or permitting persons who have been affected to go abroad.

4. The Superintendent of Police shall remove to the Small Pox Hospital established at Marandahn or elsewhere, any case of Small Pox in which he may be required so to do by the owner or occupier of a house or the head of a family, under the conditions of the 8th section of the Ordinance No. 10 of 1852, also all destitute persons affected with the disease, also all persons who may be found in the public streets or thoroughfares with the Small Pox disease upon them.

5. In the execution of these duties the subordinate Officers of the Police are enjoined to use all possible tenderness and consideration for the sufferers, and for the religious or other feelings of their relations.

6. The Superintendent of Vaccination shall furnish to the Board of Health such periodical Returns and Reports as shall seem advisable. These will in their principal features correspond with those which the Superintendent of Vaccination has to furnish the Head of the Medical Department.

7. In the event of Cholera becoming epidemic, the Board of Health will communicate to Government such measures as may seem likely to arrest the progress of the disease.

8. The Board of Health will exercise supervision over the Hospitals for Small Pox at Marandahn, or in any other place where it may be deemed requisite to form a similar Establishment. The discipline and economy of such Hospitals shall rest as heretofore with the Principal Civil Medical Officer.

9. The financial arrangements of expenses incurred by Vaccinators shall continue as heretofore to be made by the Principal Civil Medical Officer.

VACCINATION.

1. The Board shall solicit from Government such aid from the Medical Sub-Assistants, to be appointed for the duty by the Principal Civil Medical Officer, under the sanction of Government, and of Native Vaccinators, as may be judged necessary.

2. No person shall be employed in a public capacity, who cannot produce satisfactory evidence of having undergone Vaccination or small Pox. The Proprietors of Estates and Manufactories, Heads of Families, and of Mercantile Establishments, are urged to adopt a similar precaution.

3. All Government Schoolmasters shall ascertain, previous to the admission of any child to their Schools, that the like evidence exists. The same rule is recommended to private Schoolmasters and all others who have the charge of children.

4. The Superintendents of Jails and Hospitals shall ensure the security of the inmates by the practice of Vaccination, in all cases wherein the Medical Officers may deem necessary.

5. The Board, under the authority of Government, shall issue notifications setting forth the advantages of Vaccination, the dangers resulting from its neglect, and the penalties attached to disobedience of the law. They shall call for the support and aid of all Christian Ministers and Catechists, of Moorish and Budhist Priests, and of European and Native Practitioners. The vigilance and aid of the Native Headmen shall be secured by authority from Government.

---

* Similar Rules are also in force in the other Provinces.

RULES FOR THE GUIDANCE OF OFFICERS.

Superintendent of Vaccination and his Duties.—The Superintendent of Vaccination shall generally superintend the labours of the different Vaccinators. He shall, from time to time, during his inspection, satisfy himself that only genuine Lymph is employed by them, and that they perform the operation of Vaccination in a correct and satisfactory manner. He shall take care that the proper returns are forwarded at the periods specified. He shall furnish annually to the Board a detailed Report of the progress of Vaccination in the Western Province.

Medical Sub-Assistants.—The Medical Sub-Assistants engaged in Vaccination duties shall make a Monthly Report to the Superintendent of Vaccination, specifying the number of persons vaccinated by the different Vaccinators employed under them, whose Vaccination they, the Medical Sub-Assistants, have personally inspected. The quality of the Lymph employed in their districts, whether it has suffered deterioration from any cause; and the nature and extent of assistance rendered by the Civil Authorities, particularly the rural Headmen. If they have any communication to make calculated to further the cause of Vaccination, or with reference to the activity and efficiency of the Native Vaccinators, it should be embodied in such Reports.

The Medical Sub-Assistants shall vaccinate twice in the week, other Civil duties permitting. Their Vaccination should not extend to the remote stations, but once a month they should visit all the stations of the Native Vaccinators under them, in order that they may be enabled to make the report above mentioned to the Superintendent of Vaccination. They shall forward to the Superintendent of Vaccination, a weekly numerical return of Vaccination performed by themselves and the Native Vaccinators in their districts, and also a monthly nominal return. All weekly returns should be forwarded to the Superintendent of Vaccination on Mondays, and all Monthly returns should be despatched so as to reach the Superintendent by the 10th of the month.

Native Vaccinators.—Native Vaccinators shall make themselves practically acquainted with the different matters connected with Vaccination, by embracing all opportunities for instruction and improvement. The Medical Sub Assistants under whose direction they are employed, shall report periodically upon their general usefulness, diligence and activity, to the Superintendent of Vaccination. They shall vaccinate four days in each week. They shall forward to the Medical Sub Assistant of their district, or to the Superintendent of Vaccination, where no Medical Sub-Assistant is employed on such duties, a weekly numerical return in the same form as that prescribed for the Medical Sub-Assistants. They shall have one or more Vaccine stations in a village, according to its extent, and shall use their best exertions to promote efficient Vaccination by uniform kindness of manner, by great care in the performance of their duties, and by exhorting the patients to protect the vesicles throughout all stages, so that crusts may be properly formed. At the end of the month the Native Vaccinators shall furnish the Medical Sub-Assistant or Superintendent of Vaccination with a nominal return of Vaccination, in the same form as that prescribed for the Medical Sub-Assistant.

RULES FOR VACCINATING.

1st.—All persons who have not been satisfactorily vaccinated or had the Small Pox are liable to the most severe form of that disease. The protection of all such persons by efficient Vaccination is the object now earnestly desired.

2nd.—If a healthy child be properly vaccinated, by puncture at 8 o'clock on Monday, at the same hour on the following Monday the vesicles will be of a circular form and pearly appearance, well raised from the surface, with a flat top, not a pointed one, and with very little surrounding inflammation. *Such a child, although liable to Small Pox before, is now safe; and such a case should be invariably chosen from which to vaccinate others.*

3rd.—Four small punctures should be made, care being taken that the lymph is inserted under the thin skin.

4th.—The patients and their friends must be urged not to allow the vesicles to be rubbed at any time, so that they may dry and fall off of themselves.

5th.—Punctuality of attendance is essential, to avoid disappointment to patients, and to enable you to judge of the success of your efforts.

6th.—Efficient Vaccination leaves on the arm a distinct though superficial scar, which looks as if pins had been stuck into it. If there are not at least three such marks, or if seven years have passed since the last Vaccination, the person should be re-vaccinated.

Boat Hire for Galle.

Charges for the Hire of Boats licensed for the conveyance of Passengers in the Harbour of Point de Galle between Shipping and the Landing place, and from one Vessel to another.

	s.	d.
For a Boat to carry 10 Passengers	5	0
Do. 8 do.	4	0
Do. 6 do	3	0
Do. 4 do.	2	0
Do. 2 do.	1	0

Note—Canoes (manned with 3 men) come under the last denomination.

Two children under Ten years of age to be charged as one Passenger.

The Rate of Hire fixed for each Boat shall be paid in full, whether it be employed to convey Baggage or Passengers.

Each Boat (in addition to its Number) shall have the Rate of its Hire painted on its most conspicuous part with white paint upon a black ground; and the Tindal shall keep a Scale of Rates to be produced when asked for.

Boats engaged for service, or detained after 8, P. M., may charge one-half more than the usual Hire.

Boats employed by persons desirous of visiting Shipping, and wishing to return in the same conveyance, are also allowed to charge one-half more than their usual hire; and if the visit be prolonged one hour, are allowed to charge double hire and are not bound to wait longer.

General Rates of Agency,

COMMISSION, AND GODOWN RENT, AGREED UPON BY THE CHAMBER OF COMMERCE OF CEYLON,

On the 29th April, 15th May, and 12th June 1839; *and revised on the 5th August* 1848.

For drawing, engrossing, attesting and recording Protest of ships or vessels, for every folio of 120 words or less —— ——	0	5	0
For every Notarial copy or Extract of deeds where parties require same (excepting the attestation,) for every folio of 120 words ——	0	0	9
Fee for attesting same —— —— ——	0	3	0
For every duplicate deed engrossed, attested, and filed in court, half of the above charges.			
For preparing certificate of the Colonial Secretary or other officer, to any document intended to be sent abroad —— ——	0	2	6
For attendance either at the Notary's office or elsewhere, in cases of unusual difficulty or importance, for the purpose of reading and settling instruments before execution —— ——	0	3	4
All exclusive of the attendance in case any deed or instrument may not be executed at the house or office of the Notary; and also exclusive of the stamp duty.			
For attendance at any place other than the Notary's house or office, a charge of 1*s.* 6*d.* per mile, or for any distance under a mile, shall be allowed as travelling expenses.			
If the attendance is at night, double the above charges for attendance.			
When an interpreter is required, a charge not exceeding two shillings for every necessary attendance may be made.			

Church Fees.

(From the Government Gazette of July 5, 1851.)

WHEREAS it is expedient to alter the rate of certain Fees chargeable for the celebration of the occasional Services of the Church, and to remove all doubt as to their appropriation.—It is hereby ordered, that no Fee be henceforth charged for any such Service, which is not included in the annexed Table, as sanctioned by the Bishop of the Diocese, and confirmed by His Excellency the Governor; and that all Fees so charged (with the exceptions specified herein) be applied solely for the benefit of that Church or Burial ground in which the rite is solemnized.

TABLE OF FEES.	£	s.	d.
For a Marriage License	2	0	0
Solemnization of Marriage, if by License	0	10	0
—— —— by Banns	0	5	0
Publication of Banns	0	1	0
The Churching of Women	0	1	0
The Burial of Adults	0	6	0
—— Children	0	4	0
—— Infants	0	2	6
—— of Strangers, or persons buried by any other than the appointed Clergyman (extra fee) if Adults	0	2	0
—— if Children or Infants	0	1	0
Every Extract from a Register of the Church	0	2	0

All Fees to be paid over at the end of every quarter to the Trustees or Churchwardens, or, if none have been appointed, to the Bishop of the Diocese, for the maintenance of the fabric or services of each Church, or of the Burial ground connected with it.

Except 1st, the fee for a Marriage License; one-fourth of which is to be paid to the Registrar or Surrogate.

——2dly, for an Extract from the Church Register, one-half of which is to be paid to the person making the extract.

In cases of extreme poverty, the officiating Clergyman is hereby invested with discretion to remit half or the whole of the amount of Fee payable for any Church service.

This Table of Fees must be placed in some conspicuous part of every Church or Vestry.

Kandy, 12th June, 1851. J. COLOMBO.

Shipping and Landing Charges.

Shipping Charges.

	120 Bags Coffee.

In connection with the Wesleyan Mission in the Northern and Eastern Provinces of Ceylon, there are 8 English, and 23 Tamil Schools; 4 English and 28 Tamil Congregations. The Local Agents engaged in the Mission consist of 6 Catechists, 17 Local Preachers, 36 School Masters, and 10 School Mistresses. The Schools are aided by a Grant from the Government.

Rev. J. Walton, General Superintendent of the Wesleyan Mission in the Northern and Eastern Provinces, and Financial Secretary.

ABSTRACT STATEMENT OF THE SALE OF THE TOLL RENTS ON BRIDGES, CANALS, ROADS, AND FERRIES, IN THE SEVERAL PROVINCES, FROM 1852 TO 1861.

* This has been an unpleasant month. The days have been hot and disagreeable, but the mornings and nights usually very cool. A very dry parching wind set in during the close of the month, producing general sickness.

† The weather throughout this month has been extremely hot and oppressive during the day; the nights and mornings usually still and cool. Several fatal cases of Cholera among the Natives.

‡ This was a very unhealthy month, warm and oppressive, with occasional light showers. A few fatal cases of Cholera among the European Troops, and several in the Pettah or Native Town.

§ On the night of the 17th, a very large quantity of rain fell, causing much damage in the Pettah or Native Town. Remarkably heavy thunder storm on the 19th.

‖ The heat to the 19th of this month was excessive, when the S. W. monsoon may be said to have set in with heavy rain, thunder, and lightning. The weather during the remainder of the month, though hot, has been squally, and the sea occasionally high.

¶ This has been a cool pleasant month throughout, with occasional showers and constant sea breeze. The season is generally healthy.

** The weather during this month has been very indifferent, warm, and disagreeable. Strong winds on the 9th and night of the 10th. The season continues healthy. A comet of an unusual size and brilliancy appeared on the night of the 4th. It became visible for a few evenings, from about ½ past 7 to ½ past 9.

†† This month, though at times very hot and disagreeable, was rendered pleasant on the whole by sudden and unexpected squalls and heavy showers of rain. A good deal of rain has also fallen in the upper country.

‡‡ On the whole, this month may be said to have been agreeable, there being generally a pleasant sea breeze in the afternoons, with occasional showers.

§§ This has been a hot and oppressive month, and the wells (although unusual at this season of the year) partially failed in their supply of water. The occasional showers towards the end of the month, accompanied with thunder and lightning, rendered the atmosphere more bearable.

‖‖ The weather this month was exceedingly rainy, accompanied by thunder and lightning. On the night of the 4th there was a continual fall of rain, and the wind remarkably high on the 5th, blowing half a gale, with a heavy sea, which caused some damage amongst the Shipping in the Roads. Fevers and colds have been prevalent, but the health of the country is, on the whole, good.

¶¶ The nights and mornings of this month have been very cold, the days hot and sunny, with a drying wind.

G. N. KELSALL,
Capt. R. E.

Meteorological Observations, at Galle, during the year 1861.

November	17	4	76	84	N.E.
December	8	„	78	80	N.E.

January.—The month of January was upon the whole a pleasant one, though the weather sensibly changed daily from cool to warm, and even hot. During the first week. there were three drizzly days, with the Thermometer averaging 78°. During the second week, on the 11th and 12th, we had rain, but there was a rise of two degrees in the Thermometer. During the third week, we had cool mornings with warm days, the 15th being cloudy and drizzly. During the fourth week and remaining days, the mornings were warm, days hot, with the Thermometer at 82,° and the nights were dewy, heat drops occurring on the 20th, 22nd, 25th, and 28th instants.

February.—The weather during the month of February was very agreeable for the season of the year; the Thermometer did not exceed 82° as the maximum, and occasionally was as low as 78.°

March.—The month of March was a very oppressive one; the Thermometer averaged only 84° meridie. The "low wind" blew for a day or two between the 17th and 20th, but soon died away. Rain occurred on the 1st, 12th, 17th, and 18th, with thunder and lightning on the 12th, 17th, and 23rd instants.

April.—During the month of April, the weather was very oppressive indeed; throughout the entire month the Thermometer being as high as 91° at midday. The nights were distressingly hot, with chilly winds commencing at 3 or 4 A. M. Rain accompanied with thunder and lightning, occurred on the 3rd, 5th, 7th, 12th, and 13th instants. Drizzly weather on the 4th, 8th, and 9th, with distant thunder on the 6th and 10th.

May.—The weather during the month of May was very hot and disagreeable, accompanied with hot, dry, and parching winds from the south-west. The usual quantities of atmospherical phenomena of rain, thunder, lightning, and gales, were wanting: heat drops occurred on the 17th, with thunder and lightning; and rain, thunder and lightning on the 18th; but no rain subsequently fell until the evening of the 29th, and then a slight shower.

June.—The month of June was comparatively cool, with powerful gusts of south-westerly winds amounting almost to gales; the evening of the 23rd was drizzly. We otherwise had no rain. There was a difference of 10 degrees in the temperature between June 1860 and June 1861, the latter being cooler, with the Thermometer averaging 88° meridie.

July.—July also was a comparatively cool month, the maximum rise of the Thermometer being 90° meridie. The winds usual during this month are hot and parching, but they did not set in at the expected period. A comet was visible in the south-west on the 2nd, which daily became more fully developed. It appeared very brilliant and magnificent by the 10th, when it gradually began to fade, and disappeared by the 15th. Heavy rain occurred on the 6th, 26th, and 29th instants, accompanied with slight thunder and lightning.

August.—During the first four days of the month of August, we had good daily showers of rain, accompanied with thunder and lightning, with a marked increase of fever, coughs and colds Though the "fever season" had come to a close, much sickness prevailed, and altogether the climate, by the "oldest inhabitants," was considered greatly changed, confused, and uncertain. Much fever as occurring in the interior, and murrain amongst cattle, were reported by the headmen. Besides the first four days of rain already mentioned, rain also occurred on the 6th and 7th instants, cooling the weather somewhat, though the Thermometer averaged 84° meridic. The remainder of the month was hot and dry, with powerful gusts of wind. We had thunder on the evening of the 22nd, but no rain, and the Thermometer rose to 88° midday.

September.—During the first week in September, the weather was very sultry and dry; the second week was sultry and cloudy, with rain on the 13th and 14th, accompanied with thunder and lightning. During the third week, rain occurred almost daily, with the usual phenomena of thunder and lightning but slight; and during the last week of the month, we had but one drizzly day, the 24th. Upon the whole, the month was cooler than usual, the Thermometer averaged 82° A. M., and post meridie, and 86° to 88° midday. Powerful gusts of south-westerly winds occurred almost daily; the nights were cold, with tempestuous gusts of wind.

October.—The weather during the month of October was generally cool; occasionally, however, it proved distressingly oppressive during the day, though the Thermometer averaged 78° A. M. and 84° meridie. The mornings were cool and pleasant; and the nights dewy. We had drizzly weather on the 6th and 7th; rain, thunder and lightning on the 13th; the 14th and 15th were drizzly days, with daily cloudy weather until the 19th, when it rained heavily accompanied with thunder and lightning. Slight showers on the 21st, 22nd, and 23rd, and heavy rain daily from the 26th to the 30th,—this being considered the commencement of the north-east monsoon; but the weather was very unsettled.

November.—The month of November, though one of our *Winter* months, occasionally felt very oppressive, more so after slight drizzly showers. The monsoon was so far settled, that it blew steadily from the north east. We had 17 rainy days, but only 4 of these were accompanied with thunder and lightning: a larger amount of electric phenomena would have greatly benefitted the town and district.

December.—We had but three days of heavy rain, and five drizzly days, during the month of December, which is far short of the usual amount of rain for this month.

Average readings of the Thermometer, at Jaffna, during the year 1861.

ART-UNION OF LONDON.

444, WEST STRAND.

PRESIDENT:—The Right Hon. the Lord Monteagle.

George Godwin, Esq., F. R. S., F. S. A., 24, Alexander-square, Brompton; and Lewis Pocock, Esq., F. S. A., 20, Upper Gower-street.—Honorary Secretaries.
Thomas Simons Watson, Esq., B. A.—Assistant Secretary.

THE ART-UNION OF LONDON has for its object, to promote the knowledge and love of the Fine Arts, and their general advancement in the British Empire, by a wide diffusion of the works of native artists; and to elevate Art, and encourage its Professors, by creating an increased demand for their works, and an improved taste on the part of the Public. It is under the direction of a Council of the Members, whose services are honorary, and four of whom retire from office every year.

Subscribers of One Guinea are members of the Society for the year for which the subscription is paid. The subscriptions are devoted to the purchase of Pictures, Drawings, Enamels, Sculpture, Medals, Engravings, and other works of Art.

W. C. B. CAVE,
Honorary Secretary for Ceylon.

ART UNION OF GLASGOW.

(Instituted 1841.*)*

PATRON—HIS ROYAL HIGHNESS PRINCE ALBERT.

The object of the ART UNION OF GLASGOW is, briefly, to aid in extending amongst the Community a knowledge of the FINE ARTS, by the purchase and dissemination of meritorious Works amongst the Members.

A subscription of ONE GUINEA constitutes Membership for One Year. The whole Subscriptions, after deducting the necessary Expenses, are devoted to the purchase of PICTURES, DRAWINGS, SCULPTURES, ENGRAVINGS, and other WORKS OF ART.

Messrs. BRODIE & Co.,
Hon. Secretaries for Colombo.

„ (Mediterranean)					30	32	32	34	...	...	...	...	...	...	...	...	...	...	...
Native First Class rates (Eastward of Suez, and exclusive of victualling).....	15	30	57	...					9	20	60	60	38	38	38	18	24	41	56

The above rates are exclusive of the amounts payable to the Egyptian Transit Administration for conveying of Passengers through Egypt.

For First Class passengers... £7
„ Second „ ..... 3 10*s.*
„ Children above 3 and under 10 years half fare.

Passengers will have to defray their own expenses for Hotels, in the event of detention at POINT DE GALLE.

Baggage.

First class Passengers are allowed in the Company's Steamers only, on either side of the Isthmus, 3 cwt. of personal Baggage free of Freight, and children and servants 1 cwt. 56 lbs. each.

The charge for extra baggage is at the rate of 10*s.* per cwt. between England and Malta or Alexandria; and £1 per cwt. between Suez, India and Austarlia.

Passengers from India and China will have to pay the Egyptian Transit Administration in Egypt 6*s.* per cwt. for conveyance of baggage, should it exceed 3 cwt. each for First class Passengers, and children and servants 1½ cwt. each.

Every package of Baggage should have the owner's name and place of destination distinctly painted upon it.

Passengers taking Parcels or articles of merchandise in their baggage will incur the risk of seizure, by the Customs' authorities, and of detention for freight by the Company's Agent.

* Note.—Should more than one child under 3 years of age be conveyed, one quarter of First-Class rate will be charged for each child, exclusive of the one taken free.

† The rates for Native servants between Ports in India, and China, include a passage back to the port of embarkation. Should the First-Class passengers be desirous of sending the servant back at once, a reduction of one half is made in favour of native servants returning from England within three months after the arrival from India, &c.

F. BAYLEY.
Agent.

Agent at Galle, Capt. F. BAYLEY.

Peninsular and Oriental Steam Navigation Company.

Rates of Passage Money, including Stewards' Fees, Table, Wines, &c., for First-class Passengers. Bedding, Linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense, together with the attendance of experienced male and female servants.

Overland Route,—via Trieste.

The Austrian Lloyd's Steam Navigation Company despatch a first class Steamer direct to Trieste, after the arrival at Alexandria of Passengers by each Steamer from India.

Fares,	1st class (inclusive of all charges)	£16
	2d class	11
	3d class (Deck)	7
	Children under 10 years,	Half fares
	Children under 2 years .	Free

Parties who engage passage in India thereby secure priority in the choice of accommodation.

There are now so many Railroads open through Germany that London may be reached from Trieste in 6 days with comfort, at a cost varying from £12 to £15, inclusive of Hotel charges, &c. &c.

To Travellers who proceed through the Continent without unnecessary stoppages, the following is the expense of the journey from Ceylon to London.

From Ceylon to Suez ...	... £75
Expenses of Transit through Egypt	... 10
Alexandria to Trieste ...	... 16
Trieste to London	... 12
	£113

Of these expenses all except the portion from Trieste to London may be paid in Ceylon.

Except when there is a Plague or Cholera in Egypt, Passengers land at Trieste, without detention for Quarantine.

Baggage.—Under arrangements recently made with the Peninsular and Oriental Steam Navigation Company, such baggage as Passengers proceeding to England *via* Trieste, may not wish to carry with them across the Continent, will be forwarded to Southampton per P. & O. Company's Steamer at a charge of 10*s*. per cwt.

All articles, subject to duty, brought by passengers to Trieste arriving from Alexandria, can, if desired, be cleared on board, upon payment of the Custom house duty thereupon; for this purpose, a Customhouse officer specially appointed will proceed on board immediately the Ship arrives. Their baggage can also be furnished at once with the customs seal on board, if the traveller wishes to proceed without interruption from Trieste to Vienna.

Such articles as are to be sent after the owner from Trieste on the Continent, can (if the same are packed up in such a manner, that the prescribed official enclosure may be placed upon, and a guarantee being given for the import duty in case of a transgression) be declared under the head "*goods in transit*," and thus cleared on board by the Customhouse officer. All sealed letters must be delivered to the said officer, to be forwarded through the Post Office. Any further directions required to be observed, will be given by the officer entrusted with the examination of the baggage on board of the Steamer.

Passports.—Great facilities have been granted of late by the Austrian Authorities with regard to the Passport system of travellers passing through the Austrian dominions. The Passport will have only to be exhibited and vised in future by the Police Authority at the Austrian frontier (Bodenbach and Trieste or vice versa.)

The Passport for English travellers returning from India is obtainable at the Office of the British Consulate at Alexandria, for the voyage to England via Trieste. Such Passports must be vised at Trieste at the Police Office, and may at once be countersigned by the Consuls of those States through which the traveller passes.

AGENTS IN CEYLON

Messrs. Wilson Ritchie and Co., *Colombo.*
Wilson & Co., *Galle.*

Bombay Steam Navigation Company--ESTABLISHED 1845.

AGENTS.

At Kurrachee—Messrs. Manockjee & Co.
Surat—Messrs. Shapoorjee, Esq.
Vingolar—A. P. Segueira, Esq.
Goa—A. Gomes, Esq.
Cananore—Messrs. Bhimjee Dhunjee Sons & Co.
Calicut—A. Fernandez, Esq.
Cochin—James Oughterson, Esq.

COLOMBO—THOMAS DICKSON & CO.

Steamer "Bombay".....	384	Tons	200 horse power	screw (Iron)
"Scindian".....	500	„	250 „	„ „
"Victoria"	305	„	80 „	paddle
"George Russel Clark"...	60	„	22 „	„

The Company's Steamers ply between Bombay and Kurrachee, leaving Bombay on the 4th, 14th, and 24th of every month at 2 o'clock p. m., and Kurrachee on the 10th, 20th and 30th of every month at 5 o'clock p. m., conveying the Mails between those parts under contract with the East India Company's Government.

Between Bombay and Panwell, leaving Bombay every morning at 6 a. m., and Panwell every morning at 5 p. m., and, in addition, leave each of these places at 12 o'clock every day during the S. W. monsoon, Sundays excepted; thus making one trip in the N. E. and two trips in the S. W. monsoon, each way every day.

The Steamers for Surat are despatched at regular periods.

The Steamer that leaves Bombay on the 14th of the month, meets the Government Steamer at Kurrachee, that runs to the Upper Provinces.

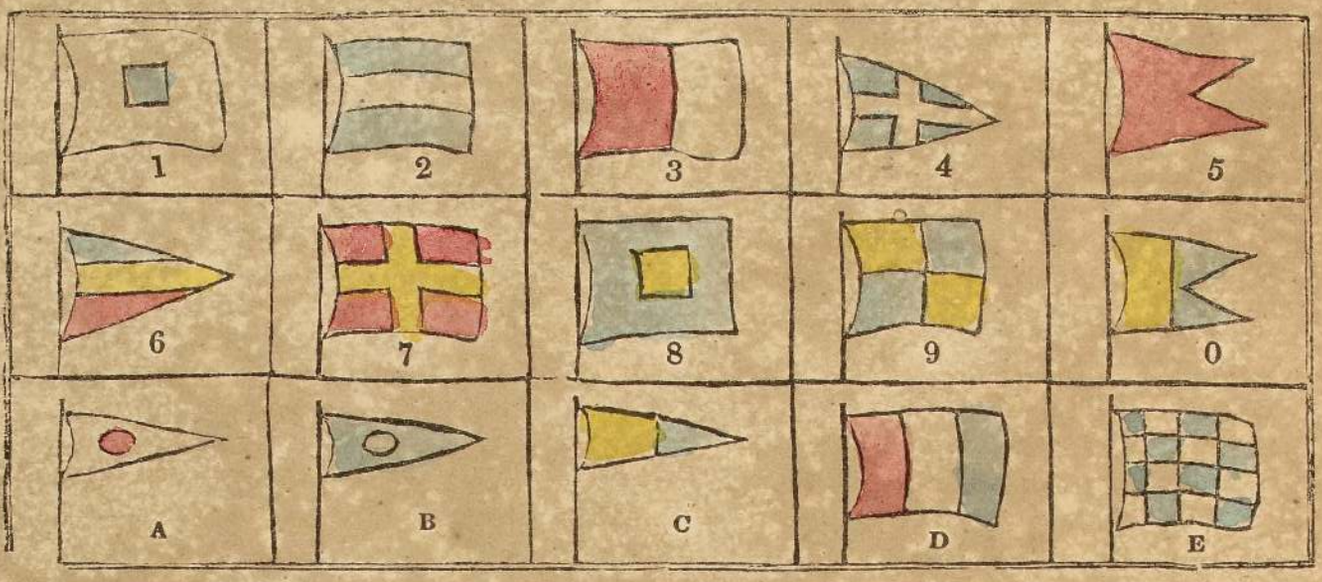
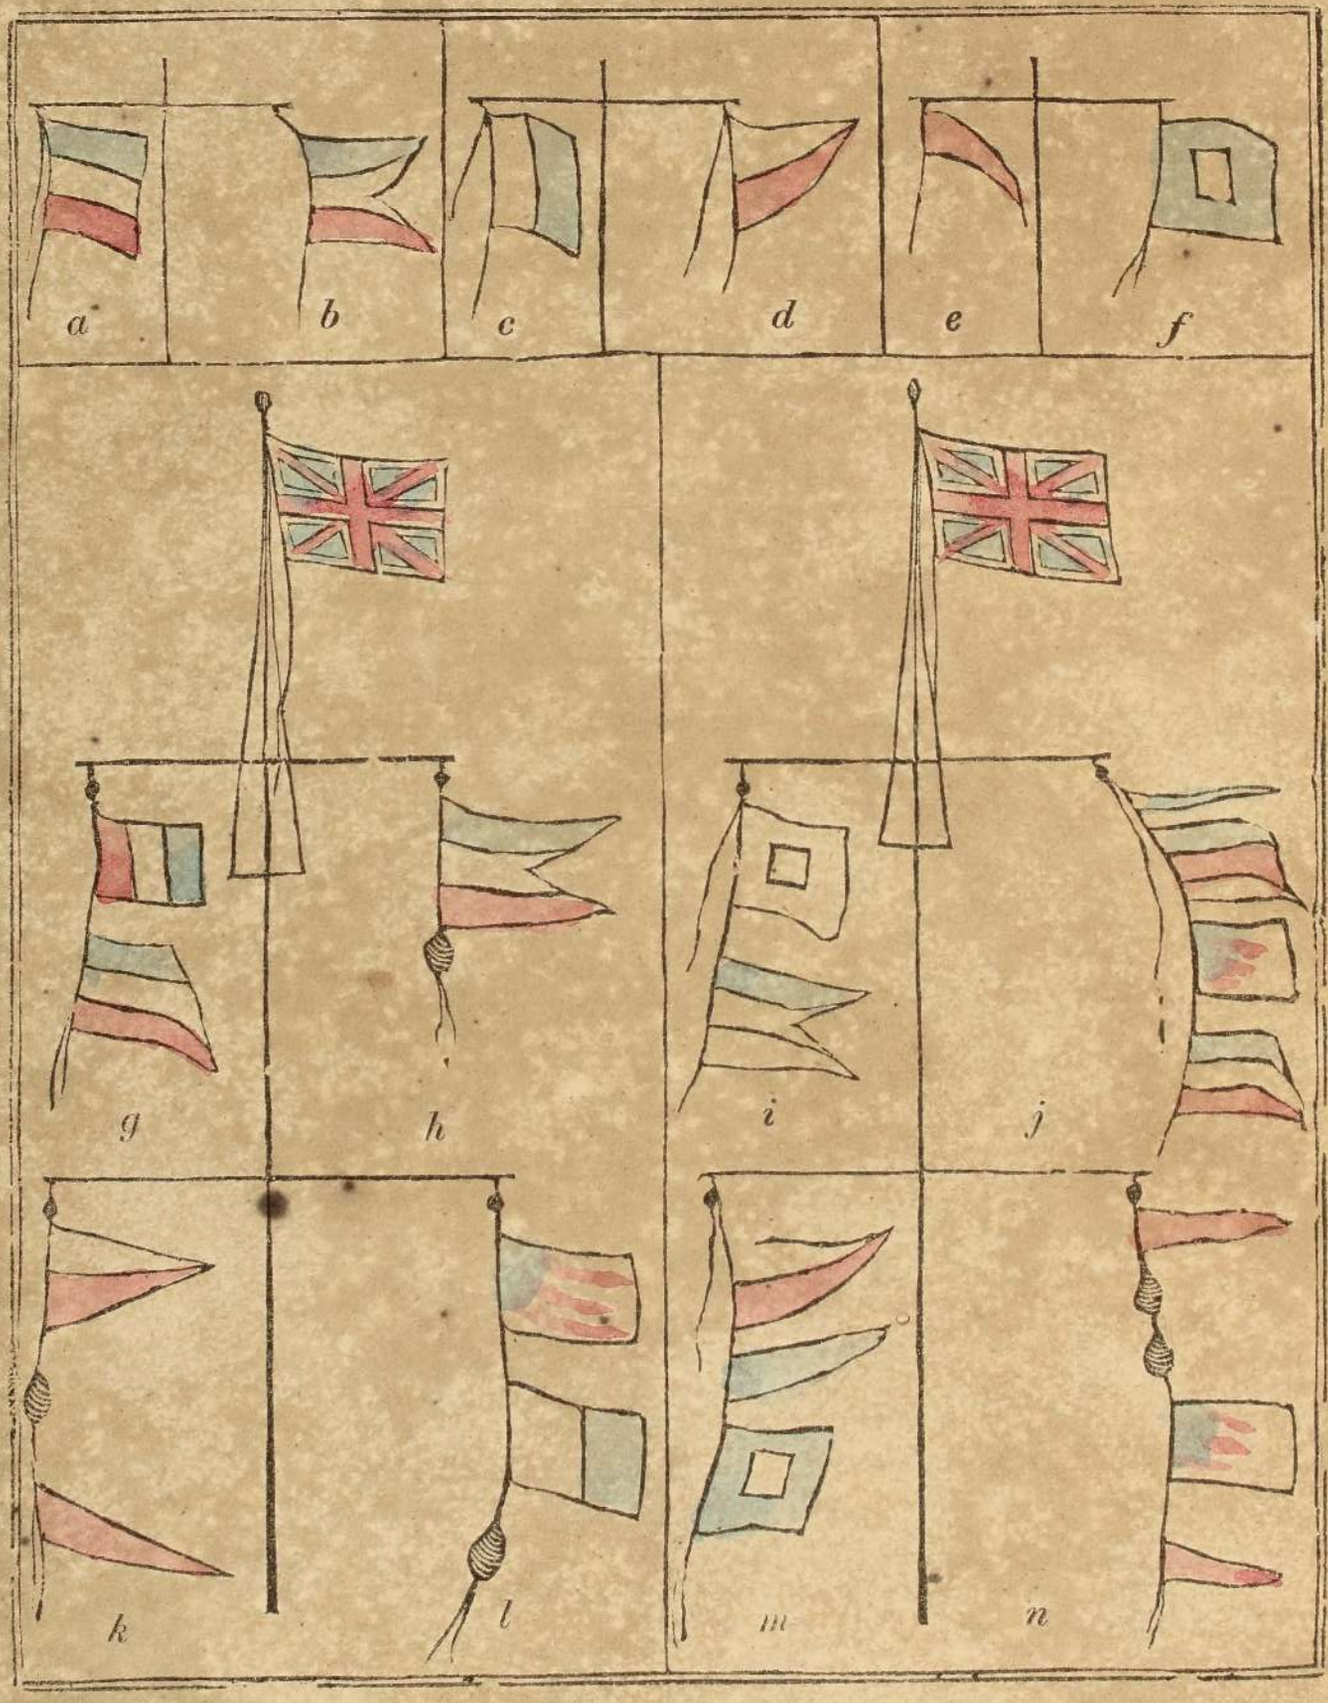
APPENDIX.



Code of Local Signals, for notifying the approach of Vessels at the Flag Staff of Colombo.



Shipping Intelligence.—Signals.

Figures 1 to 0 the same as in Marryatt's Code of Signals.
A. First distinguishing Pennant.
B. Second distinguishing Pennant.
C. Numeral Pennant.
D. Telegraph.
E. Rendezvous.

LOCAL SIGNALS—COLOMBO.

b, Barque; *d*, Schooner; Sloop, cutter, or boat; Steamer; 3 masted at upper yard, 2 masted at lower yard;
g, one French Ship;
h, two Barques;
i, one masted Steamer and a Barque;
j, one Ship and an American Ship, both of War;
k, two Schooners and a Sloop
l, two American Brigs;
m, one Schooner and a two masted Steamer of War;
n, 3 Sloops and an American Schooner.

GENERAL MEMORANDUM.

1. The upper yard is used for notifying the approach of three masted vessels only.
2. Square flags represent ships and brigs; swallow-tailed, barques; and pendants, schooners and sloops.
3. The number of masts in the vessel approaching, corresponds with the number of colours in the flag.
4. Foreign ships are known by the national colour hoisted above the flag denoting the nature of the vessel.
5. A blue pennant over a flag signifies a ship of war, over the national colour a foreign one.
6. Balls only denote the number of vessels of the same kind in sight, they are *never* hoisted above the flag they belong to: one denotes two, two three, &c.

---

7. A white flag pierced with a red ball (1st pennant) indicates the arrival of the English Mail at Colombo.
8. The 2d pennant, blue pierced white, indicates the arrival of the Mail Steamer from Calcutta.
9. The 3d pennant, red pierced white, indicates the arrival of the Mail Steamer from China.
10. The numeral pennant, yellow and blue, indicates the arrival of the Mail Steamer from Bombay.

LOCAL SIGNALS—TRINCOMALIE.

Blue Swallow Tail flag	Strange Sail.
Blue Pendant	Ship or Barque.
Red do.	Brig.
Black do.	Schooner.
Black Ball	Cutter.
Black Balls	Steam Vessel.
Union Jack over Blue Pendant	Ship of the line.
Union Jack over Red Pendant	Frigate.
Union Jack over White Pendant	Sloop of War.
Union Jack over two Balls	War Steamer.
Union Jack over one Ball	Ship in Offing requires a Pilot.

When two or more vessels of the same rig are in sight the proper numeral flag over the Pendant or Balls will shew the number of Vessels.

4910 What ship is that?
3491 Shew your number.
3248 Name unknown.
3267 What nation do you belong to?
3915 Was the port you left healthy?
3760 What passage have you had?
3765 What passengers have you?

1326 What does your cargo consist of?
1304 Is the Captain on board?
1057 Send a boat on shore.
7138 Are there any people on board of her?
964 Have you a clean bill of health from whence you came?
5018 Have you many sick on board?

Principal Arrivals in 1861.
